

IntelaHome is a simple to use web-based portal designed for consumers to manage and monitor their home and/or office energy usage. This online management tool is as easy as online banking. With just a few clicks, customers can create a personal energy profile to automatically optimize energy usage based on consumption patterns and utility rate schedules.

- ◆ Access to real-time information regarding electric and water usage

How to Register

Access a web browser on your PC, enter:

alpha.intelHome.com

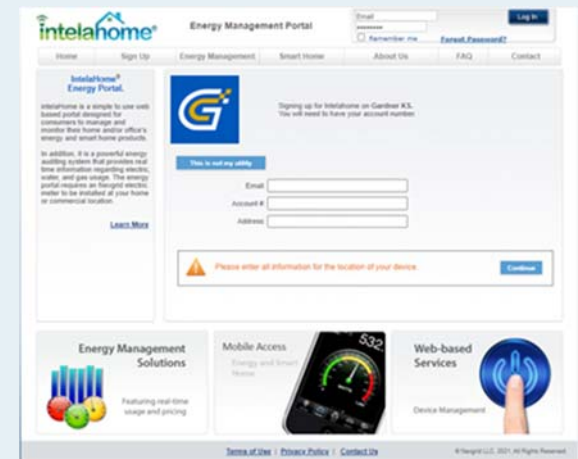

1) Click on the sign-up tab on the top navigation bar. You will then enter your zip code. Hit Continue.

2) On the next screen you will enter an email address, your utility account number and the address exactly as it appears on your paper utility bill.

Ex: 5678-24000 correct
00005678-000024000 incorrect
Hit Continue.

3) You will then receive an email with a generic password to log in to intelHome. (Check your junk folder if the email is not in your inbox.)
