Building permit fees for new construction shall be calculated by the following method:

1. Multiply the total square footage of the structure by the applicable square footage construction cost set out in Table A1 or A2 (below).
2. Determine the estimated actual construction cost.
3. Apply whichever is greater (construction cost determined in #1 and #2) to the fee table set out below as Table B1 (Residential) or Table B2 (commercial), whichever is applicable.

Construction permit fees for remodels, alterations, tenant finishes, additions, accessory structures and demolitions shall be calculated by applying the estimated actual construction cost provided by the applicant to Table B1 for residential projects and Table B2 for commercial projects.

**For commercial projects, Plan Review Fees are an additional 60% of the calculated permit fee; \$30 minimum.**

**For residential projects, Plan Review Fees are an additional 10% of the calculated permit fee; \$15 minimum.**

Square Foot Construction Costs a, b, c, d

- a. Private Garages use Utility, miscellaneous
- b. Unfinished basements (all use group) = \$15.00 per sq. ft.
- c. For shell only buildings deduct 20 percent.
- d. N.P. = not permitted

**TABLE A1 – Square Foot Construction Cost Table**

This Building Valuation Data (BVD) for the City of Gardner, Kansas is effective 11/01/2022.

On January 1 of each year and without further Governing Body action this table shall be automatically adjusted to reflect the most recent BVD published by the International Code Council (ICC).
