REVIEW CRITERIA

The review of a preliminary plat is based on the regulations of the Land Development Code, Title 17 of the Gardner Municipal Code at www.gardnerkansas.gov/documents/city-code.

The preliminary plat shall be reviewed according to the following criteria:

1. The application is in accordance with the Comprehensive Plan and in particular the physical patterns, arrangement of streets, blocks, lots and open spaces, and public realm investments that reflect the principles and concepts of the plan.
2. Compliance with the requirements of this Land Development Code, and in particular the blocks and lots proposed are capable of meeting all development and site design standards under the existing or proposed zoning.
3. Any phasing proposed in the application is clearly indicated and demonstrates a logical and coordinated approach to development, including coordination with existing and potential development on adjacent property.
4. Any impacts identified by specific studies or technical reports, including a preliminary review of storm water, are mitigated with generally accepted and sound planning, engineering, and urban design solutions that reflect long-term solutions and sound fiscal investments.
5. The application does not deter any existing or future development on adjacent property from meeting the goals and policies of the Comprehensive Plan.
6. The design does not impede the construction of anticipated or planned future public infrastructure within the area.
7. The recommendations of professional staff, or any other public entity asked to officially review the plat.
