### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the fiscal year ended December 31, 2014

**INTRODUCTORY SECTION** 

June 25, 2015

The Honorable Mayor, City Council, Citizens, Taxpayers, and Other Interested Parties of the City of Gardner, Kansas:

We are pleased to present the Comprehensive Annual Financial Report (CAFR) of the City of Gardner (City) for the fiscal year ended December 31, 2014. This is the eleventh year that the City has prepared a CAFR, and staff has submitted this CAFR for a Certificate of Achievement for Excellence in Financial Reporting with the Government Finance Officers Association of the United States and Canada (GFOA). The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report that conforms to program standards. The CAFR must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements. A Certificate of Achievement is valid for one year only. We believe this report conforms to the Certificate of Achievement program requirements.

The report was prepared by the City's Finance Department. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the government. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

The City is responsible for establishing and maintaining internal control designed to ensure that the assets of the City are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. The internal control structure is designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management.

In addition, the City maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal requirements of Kansas Statutes. Activities of the General Fund, special revenue funds (unless exempted by a specific statute), enterprise funds, and the Debt Service Fund are included in the annual appropriated budget, as required by Kansas Statutes. Spending in funds which are not subject to said Statutes are controlled by federal regulations, other statutes, or by the use of internal spending limits established by the City.

As demonstrated by the statements and schedules included in the Financial Section of this report, the City continues to meet its responsibility for sound financial management.

Kansas Statutes Annotated 75-1122 requires an annual audit of the accounts, financial records, and transactions of all administrative departments of the City by independent certified public accountants. The accounting firm of Allen, Gibbs & Houlik, L.C. was selected by the City Council. The auditor's report on the financial statements is included in the Financial Section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

### **Profile of the Government**

The City of Gardner was established on March 16, 1858 and came under the jurisdiction of the State of Kansas in 1861. The City was incorporated as a Municipal Corporation of the third class in January 1887 and as a Municipal Corporation of the second class in December 2002. The City is located in Johnson County, Kansas, along Interstate 35, about 30 miles southwest of downtown Kansas City, Missouri. Johnson County, Kansas is considered to be one of the top growth areas in the state, and one of the top growth areas in the country. Johnson County is the largest county in Kansas with a population of approximately 574,000. Because of Gardner's location on the edge of the Kansas City metropolitan area, it serves as a suburban rural living area for individuals employed in the metropolitan area and also continues to serve the surrounding rural agricultural community.

The City has a Mayor-Council-Administrator form of government. There are five members of the City Council; the Mayor and Council Members are elected on an at-large ballot to serve a four-year term on a staggered basis.

The City is privileged to have a full range of services including police protection through its Police Department, fire services through Johnson County Fire District No.1, and ambulance services through Johnson County Med-Act. The City provides municipal electric, water, and wastewater services, street maintenance, and engineering. Other City of Gardner services include: planning, zoning, and codes enforcement, municipal court, comprehensive parks and recreational activities and facilities, and general administrative services.

The Governmental Accounting Standards Board has established the criteria to determine the financial reporting entity for a municipal government's financial report. This criterion is used to examine the relationship of the City to other associated but legally separate entities to determine if their inclusion in this report would be necessary to fairly present the financial position of the City. This criterion generally has to do with the financial benefit or burden and levels of influence over the activities of these associated, but legally separate, entities.

Using said criterion, it was determined that the City has both a blended component unit and a discretely presented component unit. The blended component unit - the Public Building Commission (PBC) - although a legally separate entity, is, in substance, part of the City's operations. The discretely presented component unit is the Airport Association, which operates the municipal airport.

### **Economic Condition and Outlook**

In the past decade, Gardner has experienced significant growth. This growth is expected to continue because the City benefits from its direct access to a unique combination of interstate, air and rail infrastructure: two intersections on Interstate 35, Burlington Northern Santa Fe's major rail transit route, New Century Air Center - a premier multimodal business park – on the City's eastern side, and the consistently expanding BNSF Intermodal facility on its western side. There is no other City in the region with this combination of access to multimodal infrastructure, ample developable land, professional staff, and a Governing Body clearly dedicated to development.

This commitment to development not only includes many completed and planned initiatives related to economic development as detailed later in this document, but also includes regular interaction with an appointed, blue-ribbon Economic Development Advisory Taskforce consisting of area developers and business leaders who dedicate their time to assist the City with development-related visionary tasks and policy creation, as needed. The City also benefits from its partnerships with the Southwest Johnson County Economic Development Corporation and the Gardner-Edgerton Chamber of Commerce, both under new leadership with renewed focus in retaining and attracting business.

Gardner's location at the crossroads of multimodal transportation and its proximity to Kansas City will assuredly reap benefits, and the City partnered with the Kansas City Area Development Council (KCADC) to engage its recognized expertise in facilitating economic development, especially related to transportation. As noted on the KCADC website, they represent the two-state, 18-county region of Greater Kansas City, including Gardner. KCADC's website contains the stated mission "[...] to brand the region as one product to stimulate economic growth [...]" and "[...] equally support all regional communities [...]". KCADC's website promotes the area's supply chain-centered attributes noting, "Kansas City is experiencing one of the largest industrial booms in its history and is a center of choice for warehousing, manufacturing and distribution. Business has prospered due in large part to the region's abundant, multi-modal transportation network."

The aforementioned \$250 million Burlington Northern Santa Fe intermodal facility and associated \$1.45 billion BNSF Logistics Park KC is an inland port which provides businesses with a connection to the global supply chain and multimodal transportation to import and export goods by rail or truck. The facility will impact the City's growth, as evidenced by Coleman constructing a 1.1 million square foot distribution facility in Gardner in 2009 in anticipation of the intermodal facility's 2013 opening. Ancillary services to support the multimodal industry such as towing and hauling businesses located in Gardner in 2013. The City receives regular inquiries from developers expressing interest in building both warehousing and ancillary supply chain-related services.

In addition to increasing commercial business, an increase in residential housing is also expected. Employment projections for BNSF Logistics Park KC are 13,000 employees. As previously stated, the City is also bordered on its eastern limits by New Century Air Center, which boasts premiere companies such as Unilever, Kimberly Clark, and DuPont. As premiere companies continue to locate and expand in the area due to their need to access the intermodal facility to transport their products, Gardner will increasingly benefit, as these companies actively encourage their employees to live and shop in the local community.

The City's population in 2014 was approximately 21,000. Located in one of the fastest growing areas of the state, the City's population grew 140% between 2005 and 2014. In 2014, the number of people employed within the Gardner Trade Area Profile was 3,547.

Gardner's award-winning school district continues to expand, as a new combined middle and elementary school campus opened in August 2013.

Currently, Gardner is approximately 10.18 square miles in size. The City installed .5 miles of new underground electric distribution and transmission lines.

While the City's assessed valuation increased 5.8% from 2013 to 2014, for 2015 the assessed valuation jumped 8.5%. The City has experienced assessed valuation growth of 87% since 2005. Wealth levels and housing values exceed state averages, and Johnson County's 2014 unemployment rate at 3.1% was lower than the state's rate of 4.5%, and far less than the national unemployment rate of 6.2%.

The City's current Standard & Poor's credit rating of AA-/Stable reflects healthy financial operations for the City. The associated bond rating report prepared by Standard & Poor's Ratings Services in November 2014 notes that Gardner's economy is "adequate [...] based on projected per capita effective buying income and market value per capita[...]" but they also parenthetically added "(the city benefits from its participation in the broad and diverse Kansas City metropolitan statistical area [MSA])". S&P also concurred that Gardner benefits from the unique combination of interstate, air, and rail infrastructure.

Standard & Poor's also referenced the City's "very strong liquidity, with strong access to external liquidity" and "very strong budgetary flexibility" because of the City's large reserves. These reserves, combined with results-oriented leadership in both city staff and elected officials, are key components in approved funding for a slew of initiatives to position the City to be a key player in the area.

### 2014 Major Initiatives

Building upon the momentum created in 2013 during which Gardner's new leadership structure implemented many best practices for visioning, planning, budgeting, economic development, and creating a high-performance organization, the development of major initiatives in 2014 were created from input received during a series of visioning and planning sessions with both the business community and an appointed 18-member "Citizen Visioning Committee." Feedback from these sessions identified that the City needed a strategy for how it would develop in the future. The Governing Body took the first step in developing a strategy for the future when they identified 4 strategic goals they would use to guide the City's vision:

- Promote Economic Development
- Improve Quality of Life
- Improve Infrastructure and Asset Management
- Improve Fiscal Stewardship

In support of the Governing Body's strategic goals, especially their greatest priority of promoting economic development, key initiatives in 2014 included the development of a Comprehensive Plan and an Economic Development Strategy.

The Comprehensive Plan defined the "blueprint" for how the City will develop and included goals for neighborhoods and housing; commercial and industrial areas; growth

and annexation; transportation and mobility; community facilities such as schools, libraries, and City facilities; open space, recreation and environmental features; preserving the traditional character of the community; and integrating sustainability measures throughout the City to protect and enhance the natural environment and increase healthy living.

The Economic Development Strategy involved an outside assessment of the City's assets, opportunities, weaknesses and challenges. It also included a review of the City's economic development readiness in its growth corridors, in business retention, staffing levels of the City and the City's economic development partners, and the City's ability to leverage its municipally-owned utilities to facilitate economic development. The assessment included on-site tours of the community, stakeholder interviews and collaborative input with the Economic Development Advisory Taskforce. The stakeholder interviews included local businesses, regional economic development agencies, major employers, developers and other community stakeholders.

The Economic Development Strategy identified seven long term goals for the City. The goals are:

- 1. Continue to develop and maintain a quality community with character
- 2. Create a community that people don't want to leave
- 3. Build an image and identity as a business-friendly community
- 4. Recreate downtown as a destination
- 5. Utilize existing assets
- 6. Be development-ready
- 7. Diversify the economic base

The Comprehensive Plan serves as the vision for building a sustainable, resilient community through diversification of the City's land uses. The Economic Development Strategic Plan complements the Comprehensive Plan and identified the aforementioned 7 economic development goals. Together, these plans will help City staff and the Governing Body create an environment that enhances business attraction.

Key initiatives also included the development of a three-year Information Technology Business/Disaster Recovery Plan including revising all I.T. network infrastructure to support and safeguard the integrity of City operations; the actual implementation of the network rehabilitation began in early 2015. The City also began work on a complete redesign and implementation of a new City website to include citizen engagement capabilities; the expected unveiling will occur in 2015.

The long-awaited reconfiguration of one of the City's busiest intersections at Center Street and Main Street was completed in 2014. Construction included the addition of turn lanes, traffic signal modifications, and associated site improvements to improve safety and relieve congestion. KDOT funding paid for 100% of the project.

Finally, due to Gardner's proximity to the aforementioned BNSF intermodal facility and increased train traffic, the City constructed a "quiet zone" by modifying an existing intersection in the residential area of town nearest the facility to alleviate increased train whistles.

### Future/Planned Initiatives

As previously stated, the City spent 2013-2014 implementing best practices, including Priority-Based budgeting. One of the key components of Priority-Based budgeting is that it is a cycle of continuous process improvement, with each year's new initiatives building upon the previous year's completed plans and projects. In 2014, the budget featured a theme of defining a strategy for development – *Vision: Determining a Roadmap to Our Destination* – and the initiatives were focused on visioning and planning, such as developing the aforementioned Comprehensive Plan and Economic Development Strategy.

Subsequently, the 2015 initiatives build upon the vision and planning work of 2014 and were developed around a new, supporting theme "A Roadmap to Building a Community," with initiatives focused on maintaining or improving the City's existing infrastructure and assets while continuing to plan for growth and enhancing fiscal stewardship to efficiently provide core services.

Key initiatives that support the "infrastructure - building the community" theme include updating and revising the land development code, creating a comprehensive economic development incentive policy, completing assessments of the City's electric, water, and wastewater utility systems and the City's streets and pedestrian trails, installing ADA compliant ramps in the downtown sidewalks, conducting a Facility Needs Study to identify the building requirements for replacing the City's aging police facility, and rehabilitating the Aquatic Center that anchors the northwest corner of a future downtown district.

The City's current *Zoning Ordinance* was adopted in 1992 and the *Subdivision Regulations* in 2007. Substantial growth and the adoption of the aforementioned Comprehensive Plan and Economic Development Strategy have occurred since the Zoning and Subdivision Regulations were adopted. As part of the implementation of the Comprehensive Plan, the Zoning and Subdivision Regulations need to be updated to align with the community's vision developed in 2014. The land development code will serve as the implementation tool for the vision defined in the Comprehensive Plan through the revision and updating of the City's zoning and subdivision regulations and streamlining of the City's permitting processes; a land development code ensures quality development and facilitates a responsive, proactive business climate.

Among the findings from the assessments conducted during the development of the aforementioned Economic Development Strategy was the need for an incentives "toolkit" to implement the 7 identified economic development goals detailed in the strategy. In order to develop a toolkit – a comprehensive *Economic Development Incentives Policy* - the City will seek the assistance of the Economic Development Advisory Taskforce and other area members of the development and business community, as well as the advice of other area elected officials of successful communities. The incentives policy will identify the full range of incentives the City is willing to provide to facilitate both new development and assist existing small business owners.

Another key, planned initiative to support the theme of "infrastructure – building the community" – is to perform an evaluation of each of the City's water, wastewater, and electric systems. These assessments will identify improvements needed to prepare for the next wave of growth and develop a plan to strategically and responsibly invest in the City's utility assets. The completed evaluations will complement the Governing Body's 2014 decision to reorganize the City's three, separate utility departments into one department under the direction of a newly created position of Utilities Director. Additionally, a Utility Advisory Commission composed of resident ratepayers was formed in 2014 and will work in conjunction with Utility Department leadership to study issues related to the utilities and to develop recommendations to the Governing Body. The Governing Body envisions enhanced efficiency and ability to leverage the utility assets for economic development from the synergy and focus on utility best practices created from the reorganization. The utility system evaluations will provide the Utilities Director with a plan for targeted, timely improvements.

Continuing the theme of improving infrastructure, a pavement assessment of the City's residential streets and pedestrian trails is also planned to assist the Governing Body with prioritization of needed improvements. Further, in order to improve mobility for all citizens equally, the City will seek a CDBG grant to install ADA compliant ramps in downtown sidewalks to make downtown accessible to everyone.

As a follow-up to the Governing Body's 2013 tour of City facilities during which they noted the need to rehabilitate or replace the City's aging police facility, a Law Enforcement Needs Facility Study is planned, as well as rehabilitation of the City's popular Aquatics Center to make major improvements to the lap lane pool, the bath house, and the water slides.

Finally, the City also plans to invest in its human assets – its employees – as the City continues its transformation to a high-performance organization. Consequently, a compensation study is planned to determine how employees will be evaluated and rewarded for their work in assisting the Governing Body in implementing their strategic goals and the aforementioned initiatives and for providing excellent service to Gardner's citizens; a significant funding allocation is planned to implement merit pay increases for employees pending the results of the compensation study.

### Financial Planning

The City expects 2015-2019 to be financially healthy years as revenues for both property and sales tax are consistently trending upward and some large debt obligations will pay off. Additionally, the City will continue to seek opportunities to refinance existing debt for interest cost savings.

A combination of revenue greater than projected and expenses below budgeted levels contributed to the City's General Fund balance increasing to an extremely robust 57% of expenditures at the end of fiscal 2014. These large reserves, combined with increasing utility fund balances, increasing economic development activity, and greater focus on financial planning – including the aforementioned pavement and utility assessments and law enforcement facility study – will provide both strategic plans and available funding to facilitate the Governing Body's ability to undertake major initiatives in 2016 and beyond.

Major initiatives being considered for the future 2015/2016 budget will again build upon the previous years' initiatives including addressing the findings of the aforementioned utility and pavement assessments. The expected focus is to further economic development opportunities through infrastructure development and asset management.

As the Governing Body's greatest priority is economic development, it is important for the City to secure its future and the prime land area around the City's two interchanges on Interstate 35. As the City previously documented its vision for development in the recently completed Comprehensive Plan, a Capital Improvement Element (CIE) – a 20-year infrastructure analysis – is planned to determine possible costs to extend infrastructure to large areas of undeveloped land around these interchanges. The CIE will also review the ability to serve the existing and infill areas of the City. The CIE is the "bridge" – the plan – for how the City moves from the current state of the City's infrastructure documented in the utilities assessments to the future vision documented in the Comprehensive Plan.

Planning also continues for initiatives to support the Governing Body's goal of improving the management of the City's assets. A major initiative being considered is a master plan for the City's golf course. The golf course is a City asset and a large, prime parcel of land. The existing 30-year contract the City has with the operator of the golf course expires in 2018. The future budget is likely to contain a significant placeholder for development of a master plan once the Governing Body determines the vision for this valuable property.

Other asset management initiatives under consideration are the construction of a covered salt storage facility to replace an open storage facility that is non-compliant with National Pollutant Discharge Elimination System requirements, and a facility needs study to identify requirements for relocating the City's parks maintenance facility and possibly co-locating it with a public works facility. The interest in relocating the parks maintenance facility stems from the Governing Body's goal of economic development because the City's parks maintenance facility is a historic, WPA (Works Progress Administration from the Roosevelt era) building that is perfect for adaptive reuse and is geographically located in the future, envisioned downtown district.

The City's senior facility needs rehabilitation, especially for ADA accessibility; upgrading appliances, flooring, and overall remodeling are also being considered. The City plans to seek CDBG grant funding for this project. The Governing Body is also likely to approve funding to replace the roof of City Hall, especially as they previously approved a major investment of \$300,000 to rehabilitate the I.T. infrastructure which is housed in the building.

During the economic downturn, the City delayed large equipment purchases and vehicle replacements. As the City's future financial operations project to be healthy, vehicle evaluations were conducted in early 2015 which indicated an urgent need to replace over one-half of the City's police fleet; the replacement of eight police cars with SUV's is being considered, as well as replacement of a dump truck.

As previously noted, a compensation study was completed in 2015 to determine how to evaluate and implement merit pay and market comparison corrections. The Governing Body is considering setting aside significant funding to implement a second phase of pay increases, including providing "career ladders" as promotional opportunities for employees.

Future, planned improvements identified in the aforementioned utilities assessments may be funded from the increasing reserves in the utility funds. For more costly improvements, the City may prefer to pay utility debt from revenues generated in the utility funds. The phasing and scope of the future improvements will be determined with the assistance of the newly-appointed Utilities Director and the Utility Advisory Committee.

The City is not proposing any increases in the 2016 mill levy; most of the future initiatives may be implemented through the continued realignment of existing resources, the use of excess reserve funds in the General Fund and utility funds, grants, and debt financing for some capital projects.

Additionally, the City plans to conduct a sales tax election in late 2015 to seek voter approval to renew an existing .5% special sales tax that will sunset at the end of 2015. If renewal of the special sales tax is approved by Gardner voters, the City will use the

special sales tax revenue to implement a 3-year project to rehabilitate an estimated \$7 million of failing residential streets and to invest in properly maintaining the 79% of streets that are in "satisfactory" or "good" condition. If renewal of the special sales tax is not approved, the rehabilitation project will need to be reevaluated for scope and phasing as other funding sources are identified. Additionally, reconstruction of approximately \$1 million in failed pedestrian trails over a 3-year time frame may be funded from this special sales tax, although General Fund reserves may also be used if the renewal of the special sales tax is not approved.

Finally, the results of the facility needs study for a law enforcement center indicate the need for an estimated \$13 million to replace the aging police facility. Although the Governing Body strongly desires the construction of this facility, funding sources are not yet identified. The results of the future facility needs study for the park/public works facility may also impact any funding plan. As more planning is needed, it is unlikely there will be any budget impact prior to 2017.

Reviewing projections for 2015-2019 reveals that property tax revenues are anticipated to continue increasing in the General Fund, as property tax values continue to rise and new development continues. A significant increase in property tax revenue will occur in 2016 due to the aforementioned increase of 8.5% in the City's assessed valuation; additionally, the City's tax increment financing (TIF) district pays off in 2016. For the 5-year period of 2015-2019, the City projects an overall 17% increase in valuation at a moderate annual increase of approximately 5% each year for the years 2017-2019, following the 2016 jump of 8.5%. Sales tax during that same period is projected to increase significantly due to the aforementioned pay off of the tax increment financing district which contains the City's largest retailer; the overall projected increase from 2015 to 2019 is 64%.

As the Governing Body continues planning major initiatives and capital projects, the results of the aforementioned studies and assessments become known, and as development continues, projections past 2016 will likely be significantly revised. Management will continue to monitor the reserves and will take whatever actions are necessary to maintain the desired reserve level, as evidenced by past financial performance and the aforementioned investment grade Standard & Poor's credit rating of AA-/Stable.

### Acknowledgements

The preparation of this report could not have been accomplished without the support and cooperation of the Governing Body, Administration, other City departments, external auditors, and the efficient, dedicated efforts of the entire staff of the City's accounting division. In addition, special thanks are extended to various Southwest Johnson County Economic Development Corporation, the Gardner-Edgerton School District and Johnson County staff for their contribution to the statistical section of this document.

Credit must be given to the Governing Body for their support in maintaining the highest standards of professionalism in the management of Gardner's finances.

Sincerely,

Cheryl Harrison-Lee City Administrator

## City of Gardner Kansas

For its Comprehensive Annual Financial Report for the Fiscal Year Ended

**December 31, 2013** 

Executive Director/CEO

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the fiscal year ended December 31, 2014

**FINANCIAL SECTION** 

### INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and City Council Members City of Gardner, Kansas

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Gardner, Kansas (City) as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the *Kansas Municipal Audit and Accounting Guide*, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Gardner, Kansas, as of December 31, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Emphasis of Matter**

As discussed in Note 18 to the basic financial statements, the financial statements for governmental activities and the discretely presented component unit as of January 1, 2014 have been restated to fix a prior period adjustment. Our opinions are not modified with respect to this matter.

### **Other Matters**

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information listed on the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements and schedules and the introductory and statistical sections as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 25, 2015 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

### MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Gardner (City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2014. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

### FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of 2014 by \$120,905,333 (net position). Of this amount, \$17,130,656 (unrestricted net position) may be used to meet the City's ongoing obligations to citizens and creditors.
- The City's total net position increased by \$8,786,151 during the fiscal year.
- As of the close of 2014, the City's governmental funds reported combined ending fund balances of \$8,835,492. Approximately 71% of this total amount, \$6,305,486, is unassigned fund balance available for spending at the City's discretion.
- At the close of the current fiscal year, fund balance for the City's primary operating fund, the general fund, was \$6,315,126 or 61% of the total general fund revenues of \$10,421,620.
- The City's total long-term debt decreased by \$8,792,089 during the fiscal year. This was due to a portion of the City's debt paying off in 2014 from a crossover refunding that originated in 2013 and aggressive debt retirement.

### OVERVIEW OF THE FINANCIAL STATEMENTS

The City's financial report consists of the following parts:

- Management's discussion and analysis;
- The basic financial statements, which include the government-wide and the fund financial statements, along with the notes to the basic financial statements;
- Combining and individual statements and schedules for non-major funds
- Statistical section

The basic financial statements of the City include the government-wide financial statements and the fund financial statements. The notes to the financial statements follow the basic financial statements and are essential for the reader's understanding of the financial statements. Other supplementary information, including the statistical section, is also included at the end of this report to provide additional information for the reader.

### Government-wide Financial Statements

The government-wide financial statements present the results of the City's operations using the accrual basis of accounting, the basis of accounting used by private-sector businesses. These statements focus on the long-term financial picture of the City as a whole.

The *Statement of Net Position* reports all of the City's assets, deferred outflows of resources, liabilities and deferred inflows of resources and net position. Net position, the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources, are important measures of the City's overall financial health. Over time, the increases and decreases in net position can be monitored to determine whether the City's financial position is improving or deteriorating.

The *Statement of Activities* shows how the net position changed during the most recent fiscal year. The unique feature of this statement is how it shows the revenues and expenditures related to specific programs and how much of the programs were supported by the general taxes of the City. Since this statement is prepared on the accrual basis of accounting, all revenues and expenditures are included, regardless of when cash is actually received.

Both statements show the operations of the City broken down by governmental activities and business-type activities. Governmental activities are the operations of the City generally supported by taxes, such as public works, public safety, parks and recreation, and general administration. Business-type activities are operations of the City that are intended to recover all or a significant portion of their costs through user fees and charges. These consist of the four utilities the City operates: electric, water, wastewater, and stormwater.

### Fund Financial Statements

The City uses three types of funds to manage its resources: Governmental Funds, Proprietary Funds, and Fiduciary Funds. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. These funds are separated for the purpose of carrying on specific activities or attaining certain objectives in accordance with regulations, restrictions, or limitations.

Governmental Fund financial statements are prepared on the modified accrual basis. Under the modified accrual basis, revenues are recognized when they become measurable and available, and expenditures are recognized when the related fund liability is incurred, with the exception of long-term debt and other similar items, which are recorded when due. The focus, therefore, is on the short-term financial picture of the operations reported rather than the City as a whole. Most of the City's basic operations are reported in the Governmental Fund financial statements. The information reported in these statements can be compared to the governmental activities information in the government-wide statements. The reconciliation at the end of the fund financial statements details the relationship between the two types of financial statements.

The City maintains several individual governmental funds. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund, debt service fund and capital projects fund, all of which are considered to be major funds. Data from the remaining governmental funds are combined into a

single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary Funds are used by the City to account for activities that operate similar to commercial enterprises found in the private sector. Funds that charge fees for services provided to outside customers including other local governments are called enterprise funds. These funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Funds that charge fees for services provided to departments within the reporting government are known as internal service funds. Proprietary funds use the accrual basis of accounting; thus, the only reconciling items needed between the government-wide financial statements for business-type activities and the proprietary fund financial statements relate to the elimination of internal service fund activity.

The City has four enterprise funds: Electric Fund, Water Fund, Wastewater Fund and the Storm Water Fund. The City has four internal service funds: Risk Management Fund, Information Technology Services Fund, Building Maintenance Fund, and the Utility Billing Services Fund. The Electric Fund, Water Fund, and Wastewater Fund are the only funds being considered major funds for presentation purposes.

*Fiduciary Funds* are used by the City to account for resources held by the City for the benefit of a third party. Because the resources of these funds are not available for the City's operations, they are not presented in the government-wide financial statements.

### Notes to the Financial Statements

The notes to the financial statements are an integral part of the basic financial statements because they contain valuable additional information necessary for gaining a complete understanding of the City's financial statements.

### Other Information

In addition to the financial statements and the notes described above, required supplementary information concerning the City's progress in funding its obligation to provide postemployment benefits to its employees and supplementary information regarding non-major funds have been included to give the reader further information.

### ANALYSIS OF THE GOVERNMENT-WIDE STATEMENTS

### Analysis of Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. For the City, assets plus deferred outflows of resources exceeded liabilities plus deferred inflows of resources by \$120,905,333 at the close of the current fiscal year. The City's net position increased by \$8,786,151 from the prior year, with governmental activities accounting for \$5,466,974 of the increase, and business-type activities accounting for \$3,319,177 of the increase.

| Restricted for:             |                         |              |              |                          |               |               |  |
| Debt service                | 18,150,792              | 18,156,526   | -            | -                        | 18,150,792    | 18,156,526    |  |
| Capital projects            | 1,755,222               | 2,242,140    | -            | -                        | 1,755,222     | 2,242,140     |  |
| Streets improvements        | 115,336                 | 213,522      | -            | -                        | 115,336       | 213,522       |  |
| Economic development        | 190,719                 | 173,807      | -            | -                        | 190,719       | 173,807       |  |
| Other purposes              | 33,585                  | 34,910       | -            | -                        | 33,585        | 34,910        |  |
| Unrestricted                | 5,208,773               | 3,548,049    | 11,921,883   | 10,427,135               | 17,130,656    | 13,975,184    |  |
| Total net position          | \$53,800,982            | \$48,334,008 | \$67,104,351 | \$63,785,174             | \$120,905,333 | \$112,119,182 |  |

The largest portion of the City's net position (69%) reflects its investment of \$83,529,023 in capital assets (e.g., land, buildings, infrastructure, construction in progress, machinery and equipment); less any related debt used to acquire those assets that are still outstanding. The City uses these capital assets to provide services to citizens; consequently, these are not available for future spending.

An additional \$20,245,654 of the City's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of the City's net position of \$17,130,656 (\$5,208,773 governmental activities and \$11,921,883 business-type activities) is unrestricted and may be used to meet ongoing obligations to citizens and creditors.

### Analysis of Changes in Net Position

As stated earlier, the City's net position increased by \$8,786,151 during the current fiscal year. The following table reflects the revenues and expenses for the City's activities for the year ended December 31, 2014, and illustrates the comparison between 2014 and the prior year:

City of Gardner, Kansas Changes in Net Position

|                                    | Governmental Activities |               | Business-type Activities |               | Total          |                |

### **Governmental Activities**

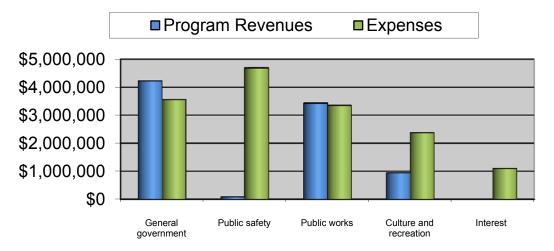

The City's net position related to governmental activities increased by \$5,466,974 during the year. The increase can be attributed to an adjustment the City made to correct assets recorded mostly before 2005 that belong to the City that were improperly recorded as Airport Association Component Unit assets and increased revenues.

Total governmental revenues increased \$3,737,447 over the prior year. Charges for Services reflects an increase in revenue from the implementation of a cost allocation plan to recover costs into the general fund for general fund services provided to the City's utilities; and Capital Grants and Contributions reflects an increase in revenue from grant funding from FAA, KDOT, CARS and CDBG for qualifying projects.

Total governmental expenses increased \$1,691,785 from the prior year. Increased costs for personnel-related expenses account for part of the increase, due in part to the implementation of a merit/COLA adjustment for personnel, state-mandated increases for KPERS and KPF, and increased overtime expenses due to vacancies. Additionally, the City completed various economic development studies, such as the Comprehensive Plan and the Economic Development Strategy, which increased expenses for outsourced services. The City also had increased depreciation expense due to the completion and capitalization of large capital projects early in 2014.

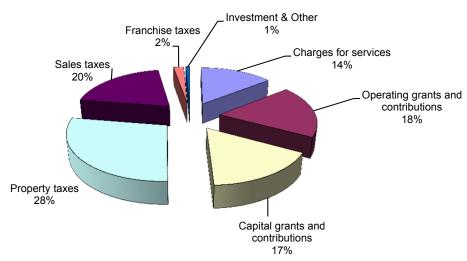

The chart below illustrates how the City's various governmental activities program revenues vs. program expenses fared in 2014.

# **Governmental Activities Expenses and Program Revenues**

The chart below illustrates the City's overall program and general revenues for governmental activities:

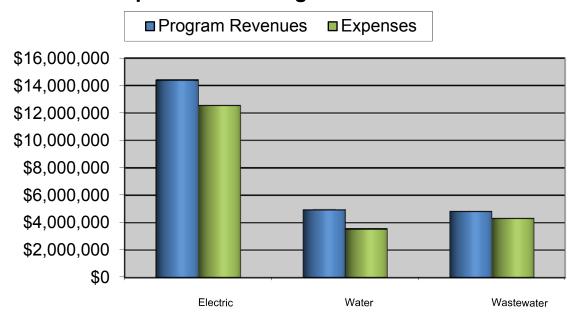

# Governmental Activities Revenues by Source

### **Business-Type Activities**

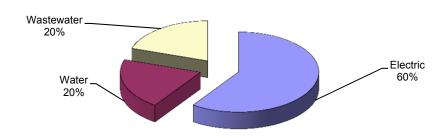

The City's net position related to business-type activities increased by \$3,319,177 from the prior year. The City implemented utility rate increases of 8% in water and 11% in the wastewater base rate; electric rates were unchanged. The program revenues vs. program expenses for business-type activities chart below illustrates the overall increase in net position for electric, water, and wastewater.

# **Business-Type Activities Expenses and Program Revenue**

The chart below illustrates the City's charges for services from business-type activities, which account for 99.95% of their revenues:

# Business-Type Activities Charges for Services by Fund

### FINANCIAL ANALYSIS OF THE CITY'S FUNDS:

The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

### Governmental funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of resources that are available for spending. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year. Types of Governmental funds reported by the City include the general fund, debt service funds, capital projects funds and special revenue funds.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$8,835,492, a decrease of \$1,214,970 in comparison with the prior year. Approximately 71% of this total amount or \$6,315,126 constitutes fund balance that is available to meet the City's current and future needs. The remainder of the fund balance totaling \$2,520,366 is restricted for specific spending.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, the total fund balance was \$6,315,126. As a measure of the general fund's liquidity, it may be useful to compare the available fund balance to total general fund expenditures. Available fund balance represents 59% of total general fund expenditures of \$10,643,144.

The fund balance in the City's general fund had an increase of \$640,151 during the current fiscal year. Total revenue in the general fund was \$10,421,620, an increase of \$972,853 over the previous year due to the cost allocation, as stated previously. This revenue increase of \$972,853 was partially offset by increased expenses of \$332,702 due to the aforementioned personnel-related expenses and economic development studies.

The capital projects fund had an ending fund balance of \$1,159,108. This is a decrease of \$829,697 from the prior year. The decrease is due to capital project spending for improvements made to the City's aquatic center and the result of issuing permanent financing for temporary notes at an amount less than the originally financed temporary notes in the amount of \$965,000.

The debt service fund had an ending fund balance of \$425,504, all of which is restricted for the payment of debt service. This is a decrease of \$926,360 from the prior year. Part of the decrease can be attributed to the reduction in the collection of delinquent special assessment taxes. Additionally, the City had increased principal expenses in 2014 from a crossover refunding that originated in 2013.

### Proprietary funds

The City's proprietary funds financial statements provide the same type of information found in the government-wide financial statements, but in more detail.

At the end of the current fiscal year, unrestricted net position for the business-type activities amounted to \$11,929,766. The total increase in unrestricted net position was \$1,400,845 from the prior year.

The electric fund had total net position of \$33,515,679 at the end of the current fiscal year. This is an increase of \$927,722 from the previous year. This increase was down from prior years due to an increase in wholesale energy costs.

The water fund had total net position of \$17,391,145 at the end of the current fiscal year. This is an increase of \$1,265,224 from the previous year. This can be attributed to increased operating revenue from charges for services due to the aforementioned rate increase and decreased treatment costs.

The wastewater fund had total net position of \$15,568,829 at the end of the current fiscal year. This is an increase of \$1,167,618 from the previous year. The increase is mostly due to increased charges for services again due to the aforementioned rate increase.

The City's internal service funds had total net position of \$50,082 at the end of the current fiscal year.

### Fiduciary funds

The City maintains three fiduciary funds for the assets of the Alcohol Safety Action Program, Special Olympics Program, and the Mayor's Christmas Tree Program. At the end of 2014, the assets of the funds were \$59,463.

### **GENERAL FUND BUDGETARY HIGHLIGHTS:**

The City's budget was not amended during 2014; therefore, the original budget and the final budget are the same. During the year, total revenues were more than budgetary estimates by \$1,631,415. Due to the City's effective budget controls, expenditures were \$4,071,362 less than budgeted, which resulted in a positive variance of \$5,702,777. A summary of differences between budgetary estimates for revenues and expenditures is as follows:

• Property tax collections were more than the original estimate by \$140,629.

- City sales and use tax revenue were more than estimated by \$207,739. This is due to a slight improvement in economic conditions.
- Intergovernmental revenues were more than budget by \$219,805. Revenues for County sales and use tax were up as a result of a stabilizing economy.
- Charges for services were more than the original estimate by \$1,006,440. This increase in revenue is due to the implementation of the aforementioned cost allocation plan.
- General Fund project reserves of \$3,917,798 remain available at the end of 2014. This is up 57% from the prior year. These large reserves will provide funding to undertake major initiatives planned for the future.

#### CAPITAL ASSETS AND DEBT ADMINISTRATION

#### Capital Assets

The City's investment in capital assets for its governmental and business-type activities as of December 31, 2014, amounted to \$147,545,279 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings, improvements, machinery and equipment, intangibles, vehicles, roads, water lines, sewer collectors and electric lines.

More detailed information about the City's capital assets is presented in Note 6 to the Basic Financial Statements.

#### Long-Term Debt

At the end of the current fiscal year, the City had total long-term debt outstanding of \$63,471,476. Of this amount, \$26,930,000 was general obligation debt backed by the full faith and credit of the City. However, \$18,113,666 of the general obligation debt is supported by business-type revenues. Special assessment debt in the amount \$15,035,000 is debt for which the City is liable in the event of default by the property owners subject to the assessment. An additional \$17,157,412 of the City's debt is from construction loans with the Kansas Department of Health and Environment and the Kansas Department of Transportation for improvements to the water, wastewater and road systems. The remainder of the City's debt represents PBC revenue bonds, certificates of participation and capital lease obligations.

In 2014, the City issued permanent financing for the temporary notes issued in 2012 for the purpose of financing a school campus benefit district and sewer project. In addition, the City issued bonds for

improvements to the City's aquatic center and to currently refund two state revolving fund loans. The refunding was undertaken to provide interest cost savings to the City.

| _  | \$ 28,678,282           | \$ 33,596,413 | \$ 34,793,194 | \$ 38,667,152 | \$ 63,471,476 | \$ 72,263,565 |  |

The City's total long-term debt decreased \$8,792,089 during the current fiscal year. This is due to a portion of the City's debt paying off in 2014 related to a crossover refunding that was completed in 2013, cost savings from issuing permanent financing for temporary notes at an amount less than the originally financed temporary notes in the amount of \$965,000 and aggressive debt retirement.

The City was assigned an "AA-" rating from Standard & Poor's for its general obligation bonds. State statutes limit the amount of general obligation debt a government entity may issue to 30% of its total assessed valuation. The current debt limitation for the City is \$47,105,324, which is significantly in excess of the City's outstanding general obligation bonds.

More detailed information about the City's long-term debt is presented in Note 13 to the basic financial statements and information regarding bond anticipation notes in Note 14.

#### REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City's finances for all interested parties. Questions concerning any of the information provided in this report or requests for additional information should be addressed to: Finance Department, 120 East Main, Gardner, Kansas 66030.

# RECONCILIATION OF THE BALANCE SHEET OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION

# December 31, 2014

| Total fund balances in Governmental Funds Balance Sheet   | \$<br>8,835,492  |
|---|------------------|
| Amounts reported for governmental activities in the statement of net assets are different because:  |                  |
| Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.   | 56,577,923       |
| Other long-term assets are not available to pay for current-period expenditures and therefore are deferred in the funds.  | 18,048,950       |
| Deferred refunding on bonds payable are not due and payable in the current period and therefore not reported as deferred outflows in the funds.   | 54,393           |
| Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.  | (29,760,351)     |
| Internal service funds are used by management to charge the costs of building maintenance and information technology services to individual funds. The assets and liabilities of certain internal service funds are included in |                  |
| governmental activities in the statement of net position.   | 44,575           |
| Net position of governmental activities   | \$<br>53,800,982 |

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

#### Year Ended December 31, 2014

Amounts reported for governmental activities in the statement of activities are different because:

| Net change in fund balances - total governmental funds   | \$<br>(1,214,970) |
|--|-------------------|
| Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.   | (1,439,281)       |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.   | 872,964           |
| The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. | 4,693,647         |
| Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.  | (24,207)          |
| Internal service funds are used by management to charge the costs of building maintenance and information technology services to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities.   | 32,904            |
| Change in net position of governmental activities  | \$<br>2,921,057   |

#### NOTES TO BASIC FINANCIAL STATEMENTS

## 1 - <u>Summary of Significant Accounting Policies</u>

## **Reporting Entity**

The City of Gardner, Kansas (the City) is located in Johnson County, Kansas and was first incorporated in 1887 under the provisions of the constitution and general statutes of the State of Kansas. The City operates under a Mayor-Council-Administrator form of government and provides a full range of services including public safety (police and fire); public works; community services; recreation and leisure; planning and codes enforcement; general management; and electric, water, wastewater, and stormwater utilities. The accompanying financial statements present the City and its component units, entities for which the City is considered to be financially accountable. The blended component unit, although a legally separate entity, is, in substance, part of the City's operations. The discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the City.

Blended Component Unit. The Public Building Corporation (PBC) is a not-for-profit corporation governed by the Mayor, certain City Council members and members of the City's management. The PBC's sole purpose is to acquire assets and construct facilities and infrastructure for the benefit of the City through the issuance of revenue bonds pursuant to Kansas Statute 12-1757. The financial statements of the PBC have been included within the City's reporting entity as a capital projects fund (City Hall). Separately issued financial statements of the PBC are not available.

Discretely Presented Component Unit. The Airport Association is a not-for-profit corporation that operates the municipal airport located in the City and promotes economic development at the facility. The governing body of the Airport Association is appointed by the City Council. The Airport Association must obtain the City's approval before issuing debt and the City has also issued debt for the Airport Association. The Airport Association's revenue is derived from the rental of hangar and building space, the sale of fuel and the sale of crops grown on airport property. The Airport Association is presented as a proprietary fund. Separately issued financial statements for the Airport Association are not available.

#### NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

#### 1 - Summary of Significant Accounting Policies (Continued)

#### Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component unit. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from the legally separate component unit for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. The agency funds do not have a measurement focus and use the accrual basis of accounting to report their financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

#### NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

#### 1 - Summary of Significant Accounting Policies (Continued)

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. A 90-day availability period is used for revenue recognition for all governmental funds revenues except property taxes for which a 60-day availability period is used. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended for the specific purpose or project before any amounts will be paid to the City; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed requirements. These resources are reflected as revenues at the time of receipt, or earlier if the susceptible to accrual criteria are met.

Property taxes, sales taxes, franchise taxes, interest associated with the current fiscal period, and certain state and federal grants and entitlements are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City. While property taxes are shown on the balance sheet as current assets of the City, they are not recognized as revenue at year end because statutory provisions prohibit their use until the year for which they were raised and budgeted. Instead, they are offset by deferred inflows of resources accounts.

#### NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

# 1 - <u>Summary of Significant Accounting Policies (Continued)</u>

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The City reports the following major governmental funds:

The general fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. This fund accounts for the general operating transactions of the City including public safety, public works, parks, recreation, and administration.

The debt service fund accounts for the resources accumulated and payments made for principal and interest on long-term debt of governmental funds.

The capital projects fund is used to account for the acquisition and construction of major capital facilities other than those financed by enterprise funds.

The City reports the following major proprietary funds:

The electric fund accounts for the operation and maintenance activities of the City's electric distribution and generation system.

The water fund accounts for the operation and maintenance activities of the City's water treatment and distribution system.

The wastewater fund accounts for the operation and maintenance activities of the City's wastewater collection and treatment system.

Additionally, the City reports the following fund types:

The agency funds are used to report resources held by the City in a custodial capacity for remittance of fiduciary resources to individuals, private organizations or other governments.

Internal service funds account for risk management, information technology, building maintenance and utility billing services provided to other departments on a cost reimbursement basis.

#### NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

#### 1 - Summary of Significant Accounting Policies (Continued)

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. An exception to this rule is charges between the City's enterprise funds and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the electric, water, wastewater and stormwater funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

#### NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

# 1 - <u>Summary of Significant Accounting Policies (Continued)</u>

#### Pooled Cash and Investments

Cash and investments of the individual funds are combined to form a pool that is managed by the Director of Finance. Each fund's equity in the pool is included in "deposits and investments" in the financial statements. These pooled deposits and investments consist of operating accounts, money market mutual funds, pooled municipal investment pool and United States Treasury Notes. The money market mutual funds, pooled municipal investment pool and treasury bills are recorded at fair value. The pool is not an SEC registered pool. The Pooled Money investment board (PMIB) provides the regulatory oversight for this pool. The reported value of the pool is the same as the fair value of the pool shares. Investment earnings, including interest income, are allocated to the funds required to accumulate interest; other investment earnings are allocated based on management discretion and upon their average daily equity balances. If a fund is not required to account for its own earnings by law or regulation, the earnings are allocated to the general fund.

For the fiscal year ended December 31, 2014, interest earnings of \$22,200 were allocated to the various funds.

#### Statement of Cash Flows

For purposes of the statement of cash flows, the City considers deposits and highly liquid investments with an original maturity of three months or less to be cash equivalents. At December 31, 2014, cash equivalents consisted of money market mutual funds and treasury bills included in pooled cash described above.

#### Allowances for Uncollectibles

All trade and property tax receivables are shown net of an allowance for uncollectibles. Trade accounts receivable in excess of 238 days comprise the trade accounts receivable allowance for uncollectibles. The allowance for trade uncollectibles is as follows at December 31, 2014:

| Electric Fund   | \$<br>515,610 |
|-----------------|---------------|
| Water Fund      | 204,236       |
| Wastewater Fund | 179,108       |

The property tax receivable allowance is equal to 6.30% of outstanding property taxes at December 31, 2014.

#### NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

### 1 - Summary of Significant Accounting Policies (Continued)

#### **Restricted Assets**

The State of Kansas requires the City to maintain customer utility and developer deposits separate from City assets in the enterprise funds. Interest earned on deposits is credited back to customers as required by State statutes. Restricted deposits and investments are also set aside for capital projects.

#### **Property Taxes**

The City's property tax is levied each year on the assessed value of all real estate listed as of the prior January 1, the lien date. Assessed values are established by Johnson County. The assessed value at January 1, 2013 upon which the 2014 levy was based was approximately \$135,979,647.

Property taxes are legally restricted for use in financing operations of the ensuing year. Accordingly, the City defers revenue recognition until the year for which they are to be used. Property taxes are levied on November 1 of each year. Property owners have the option of paying one-half of the full amount of the taxes levied on or before December 20 during the year levied with the balance to be paid on or before May 10 of the following year. Property taxes become delinquent on December 20 of each fiscal year if the taxpayer has not remitted at least one-half of the amount due. The Johnson County Treasurer is the tax collection agent for all taxing entities within the County. Property taxes levied in prior years that remain uncollected are recorded as receivables, net of estimated uncollectibles

#### Inventories

Inventories consist of expendable supplies and merchandise held for consumption. All inventories are valued at the lower of cost using the first-in/first-out (FIFO method) or market.

# Capital Assets

Capital assets, which include property, plant, equipment, infrastructure (e.g., roads, bridges, sidewalks and similar items) and construction in progress are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined as assets with an initial individual cost of more than \$10,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

#### NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

#### 1 - Summary of Significant Accounting Policies (Continued)

# Capital Assets (Continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the primary government, as well as the component unit, are depreciated using the straight-line method over the following estimated useful lives.

| Buildings and improvements | 20 - 40 years |
|----------------------------|---------------|
| Machinery and equipment    | 10 years      |
| Vehicles                   | 10 years      |
| Infrastructure             | 15 - 50 years |

The City acquired electric utility customers during 2013 and water utility customers during 2014 which are reported in the electric fund and the water fund, respectively and are also reported in the business-type activities column in the government-wide financial statements as a capital asset. The City is amortizing these assets based on the revenue generated from the acquired customers.

#### Compensated Absences

The City's policies allow up to one and one half times employees' earned rates of vacation to be carried over to subsequent years. This carryover is payable upon separation from service and ranges from 120 to 240 hours depending upon the employee's length of service.

All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. In the governmental fund financial statements, a liability for these amounts is reported only when they have matured, for example, as a result of employee resignations and retirements.

Sick leave for full-time employees is earned at the rate of approximately four hours per bi-weekly pay period with a maximum accumulation of 1,040 hours. Regular part-time employees accrue sick leave at a proportional rate to full-time employees. Accumulated sick pay is not vested, and therefore is not recorded in the financial statements.

#### **Long-Term Obligations**

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds

#### NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

#### 1 - Summary of Significant Accounting Policies (Continued)

#### Long-Term Obligations (Continued)

using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### Fund Balances

As prescribed by GASB Statement No. 54, governmental funds report fund balance classifications based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. As of December 31, 2014, fund balances for governmental funds are made up of the following:

Nonspendable fund balance – includes amounts that are (a) not spendable in form, or (b) legally or contractually required to remain intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example: inventories, prepaid amounts, and long-term notes receivable.

Restricted fund balance – includes amounts that can be spent only for the specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may effectively be changed or lifted only with the consent of resource providers.

Committed fund balance – includes amounts that can only be used for specific purposes determined by a formal action of the City's highest level of decision-making authority, the City Council. Commitments may be changed or lifted only by the City Council taking the same formal action that imposed the restraint originally.

Assigned fund balance – includes amounts intended to be used by the City for specific purposes that are neither restricted nor committed. For this type of fund balance, it is the City's policy that spending authority is delegated to management by the City Council.

*Unassigned fund balance* – is the residual classification for the General Fund and includes all amounts not contained in other classifications. Unassigned amounts are technically available for any purpose.

#### NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

#### 1 - <u>Summary of Significant Accounting Policies (Continued)</u>

#### Fund Balances(Continued)

In circumstances when an expenditure is made for a purpose for which amounts are available in multiple fund balance classifications, fund balance is depleted in the order of restricted, committed, assigned, and unassigned.

#### Deferred outflows/inflows of resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government only has one item that qualifies for reporting in this category. It is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on the refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The City has two types of items, unavailable revenue and deferred revenue that qualify for reporting in this category. Unavailable revenue, which arises only under a modified accrual basis of accounting, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Deferred revenues are reported in both the government-wide statement of net position and the governmental funds balance sheet for property tax receivable. Property taxes are not recognized as revenue until the period for which they are levied.

Governmental funds report deferred inflows of resources in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Deferred inflows of resources are reported as follows:

| General fund property taxes receivable           | \$<br>2,725,131 |
|--|-----------------|
| Debt service fund property taxes receivable      | 1,022,857       |
| Debt service fund special assessments receivable | <br>18,048,950  |
|  |                 |

21,796,938

#### NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

#### 1 - Summary of Significant Accounting Policies (Continued)

#### Net position

The government-wide statement of net position reports \$20,245,654 of restricted net position, of which \$115,336 is restricted by enabling legislation.

#### Concentrations of Credit Risk

Loans are extended, on a fully secured basis, to local businesses under an economic development loan program. Credit is extended to citizens for special assessments levied by the City for capital improvements. These special assessments are secured by liens on the related properties. Unsecured credit is extended to customers for electric, water and sewer fees and charges for services.

Intergovernmental receivables include unsecured amounts due from federal, state and county agencies for various grant programs.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Pending Governmental Accounting Standards Board Statements

At December 31, 2014, the Governmental Accounting Standards Board (GASB) had issued statements not yet implemented by the City. The statements that might impact the City are as follows:

GASB Statement No. 68, Accounting and Financial Reporting for Pensions, was issued in June 2012. This statement establishes accounting and financial reporting by state and local governments for pensions, including entities that participate in cost-sharing multiple-employer plans. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This statement replaces the requirements of Statement No. 27, Accounting for Pensions by State and Local Governmental Employers, as well as the requirements of Statement No. 50, Pension Disclosures, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements that meet certain criteria. Also, this statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. For example, cost-sharing employers participating in KPERS, such as the

#### NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

## 1 - Summary of Significant Accounting Policies (Continued)

## Pending Governmental Accounting Standards Board Statements (Continued)

City of Gardner, will be required to record its proportionate share, as defined in Statement No 68, of the KPERS unfunded pension liability. While management of the City has not yet estimated its share of the KPERS liability, it is presumed that the amount will be material to the City's financial statements. The provisions of this statement are effective for financial statements for the City of Gardner's fiscal year ending December 31, 2015.

GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date, was issued in November 2013. The objective of this statement is to address an issue regarding application of the transition provisions of GASB Statement No. 68, Accounting and Financial Reporting for Pensions. Under Statement 68, if it is not practical for an employer or nonemployer contributing entity to determine the amounts of all deferred outflows of resources and deferred inflows of resources related to pensions, paragraph 137 of Statement 68 required that beginning balances of deferred outflows and inflows of resources not be reported. This statement amends paragraph 137 of Statement 68 to require that, at transition, a government recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability. The provisions of this statement should be applied simultaneously with the provisions of Statement 68 and will be effective for financial statements for the City of Gardner's fiscal year ending December 31, 2015.

GASB Statement No. 72, Fair Value Presentation and Measurement, was issued in February, 2015. The objective of this statement is to address the accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This Statement provides guidance for determining a fair value measurement for financial reporting purposes. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements. The provisions of this statement will be effective for financial statements for the City of Gardner's fiscal year ending December 31, 2016.

GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68, completes the suite of pension standards. Statement 73 establishes requirements for those pensions and pension plans that are not administered through a trust meeting specified criteria (in other words, those not covered by Statements 67 and 68). The requirements in Statement 73 for reporting pensions generally are the same as in Statement 68. However, the lack of a pension plan that is administered through a trust that meets specified criteria is reflected in the measurements. The provisions of this statement will be effective for financial statements for the City of Gardner's fiscal year ending December 31, 2016.

#### NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

#### 1 - Summary of Significant Accounting Policies (Continued)

#### Pending Governmental Accounting Standards Board Statements (Continued)

GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans. Statement 74 replaces GASB Statement No. 43, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans. Statement 74 addresses the financial reports of defined benefit OPEB plans that are administered through trusts that meet specified criteria. The Statement follows the framework for financial reporting of defined benefit OPEB plans in Statement 45 by requiring a statement of fiduciary net position and a statement of changes in fiduciary net position. The Statement requires more extensive note disclosures and RSI related to the measurement of the OPEB liabilities for which assets have been accumulated, including information about the annual money-weighted rates of return on plan investments. Statement 74 also sets forth note disclosure requirements for defined contribution OPEB plans. The provisions of this statement will be effective for financial statements for the City of Gardner's fiscal year ending December 31, 2017.

GASB Statement No. 75, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. Statement 75 replaces the requirements of GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions and requires governments to report a liability on the face of the financial statements for the OPEB that they provide. Statement 75 requires governments in all types of OPEB plans to present more extensive note disclosures and required supplementary information (RSI) about their OPEB liabilities. Among the new note disclosures is a description of the effect on the reported OPEB liability of using a discount rate and a healthcare cost trend rate that are one percentage point higher and one percentage point lower than assumed by the government. The new RSI includes a schedule showing the causes of increases and decreases in the OPEB liability and a schedule comparing a government's actual OPEB contributions to its contribution requirements. The provisions of this statement will be effective for financial statements for the City of Gardner's fiscal year ending December 31, 2018.

#### 2 - Reconciliation of Government-Wide and Fund Financial Statements

<u>Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Position</u>

Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Position (Continued)

wide statement of net position. One element of that reconciliation explains that "Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of this \$29,760,351 difference are as follows:

| General obligation and special assessments bonds payable              | \$<br>(23,851,334) |
|---|--------------------|
| Issuance premium  | (359,318)          |
| PBC lease revenue bonds   | (2,620,000)        |
| Construction loans payable  | (477,884)          |
| Certificates of participation   | (1,670,000)        |
| Accrued interest payable  | (323,662)          |
| Other postemployment benefit obligations                              | (172,286)          |
| Capital lease obligation  | (59,064)           |
| Compensated absences  | (226,803)          |
| Net adjustment to decrease fund balance - total governmental funds to |                    |
| arrive at net position - governmental activities                      | \$<br>(29,760,351) |
|   |                    |

Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances and the Government-Wide Statement of Activities

The governmental fund statement of revenues, expenditures and changes in fund balances includes a reconciliation between net change in fund balances – total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$1,439,281 difference are as follows:

| Capitalized assets acquired                                    | \$<br>1,086,898   |
|--|-------------------|
| Depreciation expense   | <br>(2,526,179)   |
|  |                   |
| Net adjustment to increase net change in fund balances - total |                   |
| governmental funds to arrive at change in net position of      |                   |
| governmental activities  | \$<br>(1,439,281) |

# 2 - Reconciliation of Government-Wide and Fund Financial Statements (Continued)

Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances and the Government-Wide Statement of Activities (Continued)

Another element of that reconciliation states that "The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of this \$4,693,647 difference are as follows:

| Debt issued or incurred:  General obligation bonds and special assessments bonds payable                                 | \$<br>(8,090,000) |
|--|-------------------|
| Premiums   | (224,484)         |
| Principal repayments:  |                   |
| General obligation and special assessments bonds payable   | 2,776,966         |
| PBC lease revenue bonds  | 260,000           |
| Certificates of participation  | 1,000,000         |
| Construction loans   | 4,037,740         |
| Capital lease obligation   | 18,425            |
| Temporary note payable   | 4,915,000         |
| Net adjustment to decrease net change in fund balances - total governmental funds to arrive at change in net position of |                   |
| governmental activities  | \$<br>4,693,647   |

Another element of that reconciliation states that "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this \$24,207 difference are as follows:

| Compensated absences  | \$ | (67,850) |
|---|----|----------|
| Accrued interest  | ·  | 46,863   |
| Premium amortization  |    | 13,076   |
| Deferred refunding  |    | (8,159)  |
| Other postemployment benefit obligation                         |    | (8,137)  |
| Net adjustment to decrease net changes in fund balances - total |    |          |
| governmental funds to arrive at changes in net position         |    |          |
| of governmental activities                                      | \$ | (24,207) |

## 3 - Stewardship, Compliance and Accountability

### **Budgetary Information**

Applicable Kansas statutes require that budgets be legally adopted for the general fund, special revenue funds (unless exempted by a specific statute), enterprise funds and the debt service fund. A legal operating budget is not required for the capital projects funds, the capital improvement reserve fund or the airport fund. All budgets are prepared utilizing the modified accrual basis further modified by the encumbrance method of accounting – that is, commitments such as purchase orders and contracts, in addition to disbursements and accounts payable, are recorded as expenditures.

The Statutes provide for the following sequence and timetable in adoption of budgets:

- a. Preparation of proposed budget for the succeeding calendar year on or before August 1 of each year.
- b. Publication of proposed budget on or before August 5 of each year.
- c. A minimum of ten days' notice of public hearing, published in a local newspaper, on or before August 15 of each year.
- d. Public hearing on or before August 15 of each year.
- e. Adoption of final budget on or before August 25 of each year.

Kansas statutes permit transferring budgeted amounts from one object or purpose to another within the same fund; however, such statutes prohibit creating expenditures in excess of the total amount of the adopted budget of expenditures in an individual fund. The City Administrator is authorized to approve over-expenditures at the departmental level or transfers of budgeted appropriations between departments. However, management may not amend a fund's total budgeted expenditures without Council approval. The legal level of budgetary control is the fund level. Spending in funds which are not subject to the legal annual operating budget requirement is controlled by federal regulations, other statutes, or by the use of internal spending limits established by the City. All unencumbered appropriations lapse at the end of the year. Encumbered appropriations are not reappropriated in the ensuing year's budget but are carried forward until liquidated or cancelled. Kansas statutes permit original budgets to be increased for previously unbudgeted increases in revenue other than ad valorem property taxes. The City must first publish a notice of public hearing to amend the budget. Ten days after publication, a public hearing is held and the governing body may amend the budget at that time. There were no budget amendments in 2014.

#### 4 - Deposits and Investments

### **Deposits**

# Custodial Credit Risk-Deposits

Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned. Kansas statutes require that deposits be collateralized, and that collateral pledged must have a fair market value equal to 100% of the deposits and investments, less insured amounts, and must be assigned for the benefit of the City. The carrying amount of deposits for the City was not exposed to custodial credit risk.

The Airport Association does not have a policy covering custodial credit risk. At December 31, 2014, the Airport Association's deposits were not exposed to custodial credit risk.

#### Investments

At December 31, 2014, the City had the following investments:

| Investment Type  | Maturities                     | Fair Value                          |
|--|--------------------------------|-------------------------------------|
| Money market mutual funds T-Bills Pooled municipal investment pool | < 1 year<br><1 year<br><1 year | \$ 260,650<br>10,000,000<br>438,272 |
| Total Investments  |                                | \$ 10,698,922                       |

#### Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The City's formal investment policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates, but requires that to the extent possible, the City will attempt to match its investments with anticipated cash flow requirements. The City is not exposed to significant interest rate risk.

#### NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

# 4 - Deposits and Investments (Continued)

# <u>Investments</u> (Continued)

#### Credit risk

Kansas statutes authorize the City, with certain restrictions, to deposit or invest in temporary notes, no-fund warrants, open accounts, time deposits, certificates of deposit, repurchase agreements, U.S. Treasury Bills and Notes, the State of Kansas Municipal Investment Pool, or to make direct investments. The City has an investment policy which does not impose limitations beyond those of the State of Kansas. The City's investments in money market mutual funds are rated AAAm by Standard & Poor's and Aaa-mf by Moody's.

#### Custodial Credit Risk – Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments that are in the possession of an outside party. As of December 31, 2014 the City had \$10,000,000 exposed to custodial credit risk.

The State Treasurer's Investment Pool (Pool) operates in accordance with state law, which requires it to meet all of the requirements of Rule 2a-7 of the Securities and Exchange Commission. The Pool has a credit rating of AAAf/S1+ from Standard & Poor's Financial Services. Local government investment pools in this rating category meet the highest standards for credit quality, conservative investment policies, and safety of principal. The pool invests in a high quality portfolio of debt securities investments legally permissible for municipalities and school districts in the state.

# 5 - <u>Loan Receivable</u>

During 2004, 2007, 2008 and 2013 the City made loans to the Airport Association for airport improvements. At December 31, 2014, the receivable balance was \$455,000 and is included in noncurrent liabilities on the Airport Association component unit column of the statement of net position. The final principal and interest payments are to be made in 2024.

#### NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

# 7 - Capital Lease

During 2013, the City entered into a capital lease agreement for \$98,510 of equipment, included in Machinery and Equipment for Governmental Activities on the Statement of Net Position. Related accumulated depreciation was \$14,777 at December 31, 2014. The lease requires five annual payments of \$21,021, with the first payment on May 31, 2013. The lease obligation is included in Noncurrent Liabilities for Governmental Activities on the Statement of Net Position (Note 13).

#### 8 - Defined Benefit Pension Plans

# Plan Description

The City participates in the Kansas Public Employees Retirement System (KPERS) and the Kansas Police and Firemen's Retirement System (KP&F). Both are part of a cost-sharing multiple-employer defined benefit pension plan as provided by K.S.A. 74-4901, *et seq.* KPERS and KP&F provide retirement benefits, life insurance, disability income benefits, and death benefits. Kansas law establishes and amends benefit provisions. KPERS and KP&F issue a publicly available financial report (only one is issued) that includes financial statements and required supplementary information. Those reports may be obtained by writing to KPERS (611 S. Kansas Avenue, Suite 100; Topeka, Kansas 66603-3803) or by calling 1-888-275-5737.

#### **Funding Policy**

K.S.A. 74-4919 establishes the KPERS member-employee contribution rate at 4% of covered salary for all employees hired prior to July 1, 2009. K.S.A. 74-49,135 establishes the KPERS member-employee contribution rate at 5% for employees hired after July 1, 2009. K.S.A. 74-4975 establishes the KP&F member-employee contribution rate at 7.15% of covered salary. The employer collects and remits member-employee contributions according to the provisions of Section 414(h) of the Internal Revenue Code. State law provides that the employer contribution rates be determined annually based on the results of an annual actuarial valuation. KPERS and KP&F are funded on an actuarial reserve basis. State law sets a limitation on annual increases in the employer contribution rates. The KPERS employer rate established by statute for January through December 2014 was 9.69%. The City employer contributions to KPERS for the years ending December 31, 2014, 2013, and 2012 were \$427,555, \$363,966, and \$319,211, respectively, equal to the statutorily required contributions for each year. The KP&F uniform participating employer rate established for fiscal years beginning in 2014 is 19.92%. Employers participating in KP&F also make contributions to amortize the liability for past service costs, if any, which is determined separately for each participating employer. The contributions to KP&F for the years ending December 31, 2014, 2013, and 2012 were \$303,409, \$242,229, and \$232,555, respectively, equal to the statutory required contributions for each year.

#### NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

# 9 - Defined Contribution Plan

The City offers its employees a deferred compensation plan in accordance with Internal Revenue Code Section 457. The plan, available to all full-time and regular part-time employees, permits them to defer a portion of their salary until future years. The plan is administered by International City/County Management Association (ICMA) Retirement Corporation.

The plan assets are placed in a trust for the exclusive benefit of the employees and are not the property of the City or subject to the claims of the City's general creditors. The City does not perform the investing function related to this plan and has no fiduciary accountability for the plan. Accordingly, the plan assets and related liabilities to plan participants are not included in the basic financial statements. For 2014, the City's contributions were \$30,811.

# 10 - Other Postemployment Healthcare Benefits

<u>Description</u>. The City offers postemployment health and dental insurance to retired employees through Midwest Public Risk (MPR) which is a risk pool comprised of more than 160 entity members. MPR functions as an agent multiple-employer plan. The pool arrangement that is maintained to collect premiums and pay claims/administrative costs does not qualify as an "OPEB Plan" and thus cannot be treated as holding assets in order to offset OPEB liabilities. Though retiree benefits are not directly paid by the City, they are implicitly paid over time through employer subsidization of active premiums that would be lower if retirees were not part of the experience group. Kansas statutes provide that postemployment healthcare benefits be extended to retired employees who have met age and/or service eligibility requirements until the individuals become eligible for Medicare coverage at age 65. Retirees of the City (and their dependents) may elect to continue coverage in the medical and dental plans offered through MPR. Spousal coverage may continue for up to three years upon retiree death or retiree attainment of age 65. In any event, spousal coverage is not available beyond spouse age 65. MPR issues a publicly available financial report that may be obtained by writing to MPR at 19400 East Valley View Parkway, Independence, Missouri 64055.

<u>Funding Policy</u>. Through MPR, the City provides health and dental insurance benefits to retirees and their dependents in accordance with Kansas law (K.S.A. 12-5040). Kansas statutes, which may be amended by the state legislature, establish that participating retirees may be required to contribute to the employee group health benefits plan, including administrative costs at an amount not to exceed 125% of the premium cost for other similarly situated employees. The contribution requirements of plan members and the City are established and may be amended by the MPR Board of Directors. Retirees contribute 100% of the cost of premiums, which vary depending on the coverage selected.

# NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

# 10 - Other Postemployment Healthcare Benefits (Continued)

The City appropriates funds annually for the costs associated with this retirement benefit and provides funding for the expenditures on a pay-as-you-go basis through the General Fund, Proprietary Funds, and Internal Service Funds. In 2014, plan members receiving benefits contributed \$15,000 to the plan and the City contributed \$3,000 to the plan.

Annual OPEB Cost and Net OPEB Obligation. The City's annual OPEB (other post-employment benefit) cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period of not to exceed thirty years. The following table presents the components of the City's annual OPEB cost for the year, the amount contributed to the plan, and changes in the City's net OPEB obligation.

| Annual required contribution Interest on net OPEB obligation Adjustment to annual required contribution | \$<br>41,443<br>10,419<br>(13,602) |
|---|------------------------------------|
| Annual OPEB cost (expense)  | 38,260                             |
| Contributions made  | <br>(3,000)                        |
| Increase in net OPEB obligation   | 35,260                             |
| Net OPEB obligation, January 1, 2014  | <br>231,530                        |
| Net OPEB obligation, December 31, 2014  | \$<br>266,790                      |

#### NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

# 10 - Other Postemployment Healthcare Benefits (Continued)

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligations for 2012, 2013 and 2014 are as follows:

|                      | Percentage of |                   |                     |                     |         |  |  |
|----------------------|---------------|-------------------|---------------------|---------------------|---------|--|--|
| Fiscal Year<br>Ended |               | Annual<br>EB Cost | Cost<br>Contributed | Net OPEB Obligation |         |  |  |
| 2012                 | \$            | 31,274            | 15.98%              | \$                  | 203,570 |  |  |
| 2013                 |               | 30,960            | 9.69                |                     | 231,530 |  |  |
| 2014                 |               | 38,260            | 7.84                |                     | 266,790 |  |  |

<u>Funded Status and Funding Progress</u>. As of July 1, 2013, the most recent actuarial valuation date, the actuarial accrued liability for benefits was \$242,341. The City's policy is to fund the benefits on a pay-as-you-go basis, resulting in an unfunded actuarial accrued liability (UAAL) of \$242,341. The covered payroll (annual payroll of active employees covered by the plan) was \$5,454,745 and the ratio of the UAAL to the covered payroll was 4.4 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The valuation includes, for example, assumptions about future employment, mortality and the healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with the past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, will present in time, multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing relative to the actuarial accrued liabilities for benefits.

<u>Actuarial Methods and Assumptions</u>. Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and actuarial value of assets, consistent with the long-term perspective of the calculations.

#### NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

# 10 - Other Postemployment Healthcare Benefits (Continued)

In the July 1, 2013 actuarial valuation, the projected unit credit actuarial cost method was applied. The actuarial assumptions included a 4.50% discount rate, which reflects the expected rate of return of the MPR Health and Dental Fund as it is used to pay retiree claims. The valuation assumed annual healthcare cost trend rates of 5.00% to 7.00% in the first eight years and an ultimate rate of 5.00% after eight years. It also assumed an inflation rate of 2.5%. The UAAL is being amortized on a level dollar open basis over a period of 30 years with the remaining amortization period of 30 years.

### 11 - Risk Management

The City is exposed to various risks of loss related to torts; that is, damage to and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters; and employee health, dental and accident benefits. Commercial insurance coverage is purchased for claims arising from such matters other than those related to employee health benefits and workers' compensation. Settled claims have not exceeded this commercial coverage in any of the three preceding years. There have not been significant reductions in claims from prior years.

The City obtains workers' compensation and employee health insurance through its membership in the Kansas Eastern Region Insurance Trust (KERIT) and MPR, whose members consist of local cities and counties. KERIT is a risk-sharing pool organized under the insurance laws of the State of Kansas which self-insures workers' compensation and other related expenses up to certain limits and reinsures additional excess amounts up to certain limits. The City pays annual premiums to KERIT based upon historical experience and legal requirements mandated by the State of Kansas. The trust agreement allows for member assessments in the event claims and expenses exceed KERIT's self-insured retention limit. MPR operates as a purchasing pool to provide medical and dental insurance coverage on both a self-insured and conventional basis. The City does not anticipate any additional assessments in excess of premiums paid as a result of its participation in these trusts.

### 12 - Capital Projects

The City is currently improving its water/sewer and electrical systems, working on street projects and performing various new developments. These projects are being funded primarily by the issuance of bonds, both general obligation and special assessment.

# NOTES TO BASIC FINANCIAL STATEMENTS

|           | \$<br>8,816,334 | \$     | 1,631,976 | \$                       | 18,113,666 | \$ | 2,332,580 |

In April the City issued Series 2014A General Obligation Bonds in the amount of \$4,895,000 for the purpose of financing the USD 231 School Campus Benefit District in the amount of \$3,950,000 and the White Drive Sanitary Sewer project in the amount of \$945,000 that the City originally financed with its General Obligation Temporary Notes, Series 2012B.

In December the City issued Series 2014B General Obligation Bonds in the amount of \$4,140,000 for the purpose of financing certain public swimming pool improvements and to currently refund \$3,600,000 of KDOT revolving fund loans TR-0101 and TR-0106. As a result, the KDOT loans are considered defeased and the liability for the loans have been removed from the long-term debt of the City. The City completed the refunding to reduce the total debt service payments over the next 15 years by \$438,343 and to obtain an economic gain of \$441,528.

# **Special Assessment Bonds**

The City's special assessment debt was issued to provide funds for the construction of infrastructure in new commercial and residential developments. These bonds will be repaid from amounts levied against the property owners benefited by this construction. In the event that a deficiency exists because of unpaid or delinquent special assessments at the time a debt service payment is due, the government must provide resources to cover the deficiency until other resources, for example, foreclosure proceeds, are received. Special assessment bonds at December 31, 2014 are comprised of the following issues:

|  | Interest Rates | Final Principal Payments S Original Issue Maturity Date During 2014 |           |    | Outstanding<br>December 31, 2014 |    |            |

#### **Defeased Debt**

The City has defeased certain general obligation bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the City's financial statements. At December 31, 2014, \$720,000 of the bonds that are considered defeased are outstanding.

# Construction Loans Payable

During 1996, the City entered into a loan agreement with the Kansas Department of Health and Environment's Kansas Public Water Pollution Control Revolving Fund. The agreement enabled the City to borrow \$2,223,206 to finance improvements to the wastewater system. The loan will be repaid over twenty years at an interest rate of 3.22%. The total outstanding balance of \$283,754 is shown as a liability in the wastewater fund.

#### NOTES TO BASIC FINANCIAL STATEMENTS

# 13 - Long-Term Debt (Continued)

# Construction Loans Payable (Continued)

During 2005, the City entered into a loan agreement with the Kansas Department of Health and Environment's Kansas Public Water Supply Loan Fund. The agreement enabled the City to borrow \$7,582,910 to finance improvements to the water system. The loan will be repaid over twenty years at an interest rate of 3.14%. The total outstanding balance of \$4,406,394 is shown as a liability in the water fund.

During 2006, the City entered into a loan agreement with the Kansas Department of Health and Environment's Kansas Water Pollution Control Revolving Fund. The agreement enabled the City to borrow \$3,483,009 to finance improvements to the wastewater system. The loan will be repaid over twenty years at an interest rate of 2.40%. The total outstanding balance of \$2,031,387 is shown as a liability in the wastewater fund.

During 2006, the City entered into a loan agreement with the Kansas Department of Transportation. The agreement enabled the City to borrow \$692,706 to finance significant street improvement projects. The loans will be repaid over ten years at an interest rate of 3.61%. The outstanding balance of \$63,086 is shown as a liability in the governmental activities column of the statement of net position.

During 2007, the City entered into a loan agreement with the Kansas Department of Transportation. The agreement enabled the City to borrow \$1,533,638 to finance significant street improvement projects. The loans will be repaid over ten years at an interest rate of 3.37%. The outstanding balance of \$414,798 is shown as a liability in the governmental activities column of the statement of net position.

During 2012, the City entered into a loan agreement with the Kansas Department of Health and Environment's Kansas Water Pollution Control Revolving Fund. The agreement enabled the City to borrow \$10,167,808 to finance improvements to the wastewater system. The loan will be repaid over twenty years at an interest rate of 2.05%. The total outstanding balance of \$9,957,993 is shown as a liability in the wastewater fund.

| 2019      | 395,000             | 27,075     |
| 2020-2021 | 900,000             | 29,750     |
|           |                     |            |
|           | \$ 2,620,000        | \$ 234,225 |

On August 1, 2002, the City entered into an irrevocable lease agreement with the PBC. The purpose of the lease agreement is for the City to rent the building financed by the PBC lease Revenue Bonds, Series 2002A. The rental payments are the same as the scheduled 2002A debt payments. On September 11, 2012, the City issued Series 2012A lease revenue bonds in the amount of \$3,105,000 to currently refund \$3,323,431 of the 2002A lease revenue bonds.

# 14 - Bond Anticipation Notes Payable

The City issues bond anticipation notes to provide temporary financing for capital improvement projects. These bond anticipation notes were refinanced on a long-term basis during the year. Bond anticipation notes payable at December 31, 2014 were as follows:

| Issue   | _                 |       | ginal<br>ount | Interest R | ate  | Maturi<br>Date   | •  |
|---|-------------------|-------|---------------|------------|------|------------------|----|
| 2012B   |                   | \$ 6, | 245,000       | 1.00%      |      | 4/15/20          | 14 |
|   | Beginning Balance | Add   | itions        | Reduction  | ns   | Ending<br>Balanc | _  |
| Governmental activities: Bond anticipation notes  | \$ 4,915,000      | \$    |               | \$ 4,915,0 | 000  | \$               |    |

| Total   | \$ 6,245,000      | \$    |               | \$ 6,245,0 | 000  | \$               |    |

# 15 - Special Assessments

Kansas statutes require special benefit district projects financed in part by special assessments to be financed through the issuance of general obligation bonds that are secured by the full faith and credit of the City. Further, state statutes permit levying additional general ad valorem taxes in the City's Debt Service Fund to finance delinquent special assessments receivable. Accordingly, special assessments receivable are accounted for within the City's debt service fund. Special assessments are levied over the repayment period of the bonds and the annual installments are due and payable with annual ad valorem taxes. At December 31, 2014, the special assessment taxes levied are a lien on the property and are recorded as a special assessments receivable in the debt service fund with a corresponding amount recorded as deferred inflows of resources. Special assessments receivable at December 31, 2014 was \$18,048,950.

# 16 - <u>Interfund Transactions</u>

Interfund transfers for the year ended December 31, 2014 consisted of the following:

| Fund                        | Tr  | ansfers In | Tra | nsfers Out |
|-----------------------------|-----|------------|-----|------------|
| Major funds:                |     |            |     |            |
| General Fund                | \$  | 841,298    | \$  | 1,728      |
| Debt Service Fund           |     | 528,942    |     | -          |
| Capital Projects Fund       |     | 1,728      |     | 181,160    |
| Electric Fund               |     | _          |     | 941,173    |
| Water Fund                  |     | -          |     | 378,473    |
| Wastewater Fund             |     | 531,838    |     | 46,573     |
| Nonmajor governmental funds |     | 495,000    |     | 849,699    |
| Total transfers             | \$_ | 2,398,806  | \$  | 2,398,806  |

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

| Water fund  | r   | 330     |
|   | \$  | 17,246  |
| •   | - 1 | , -     |

The outstanding balance between proprietary funds was created to reflect the balance owed for services provided. The interfund payables due from certain nonmajor governmental funds include amounts owed to the General Fund for the reimbursement of certain indirect costs.

#### NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

# 17 - Commitments and Contingencies

# **Litigation**

The City is involved in various lawsuits incurred through normal operations. It is the opinion of the City's management that the outcome of this litigation will not result in a material loss to the City in excess of applicable insurance coverage.

# **Industrial Revenue Bonds**

The City has issued industrial revenue bonds to finance the purchase of land and construction of a facility leased to a business that relocated to the City. The lease agreement provides for rentals sufficient to service the related bonds. The debt service on this issue is paid solely from lease agreements; this issue does not constitute a debt of the City. The lessee has the option of purchasing the leased property at any time during the lease period for an amount sufficient to retire the related outstanding bonds. At the end of the lease period, which conforms to bond maturity schedules, the lessee may either purchase the property for a nominal amount or renew the lease annually at a nominal amount. As of December 31, 2014, industrial revenue bonds of \$46,950,431 are outstanding.

#### Encumbrances

The City uses encumbrances to control expenditure commitments for the year and to enhance cash management. Encumbrances represent commitments related to executory contracts not yet performed and purchase orders not yet filled. Commitments for such expenditure of monies are encumbered to reserve a portion of applicable appropriations. Encumbrances still open at year-end are not accounted for as expenditures and liabilities, but, rather, as restricted, committed, or assigned fund balance. At December 31, 2014, the City's recorded encumbrances in governmental funds were as follows:

| General          | \$<br>9,640   |
|------------------|---------------|
| Capital projects | 259,240       |
| Special highway  | 79,180        |
|                  | \$<br>348,060 |

#### NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

# 18 - Prior Period Adjustment

A prior period adjustment has been recorded on the entity-wide Statement of Activities for the governmental activities, increasing the net position by \$2,545,917 to reflect a change in the beginning balance of capital assets. The adjustment was made to correct assets recorded mostly before 2005 that belong to the City's governmental activities that were improperly recorded as Airport Association Component Unit assets.

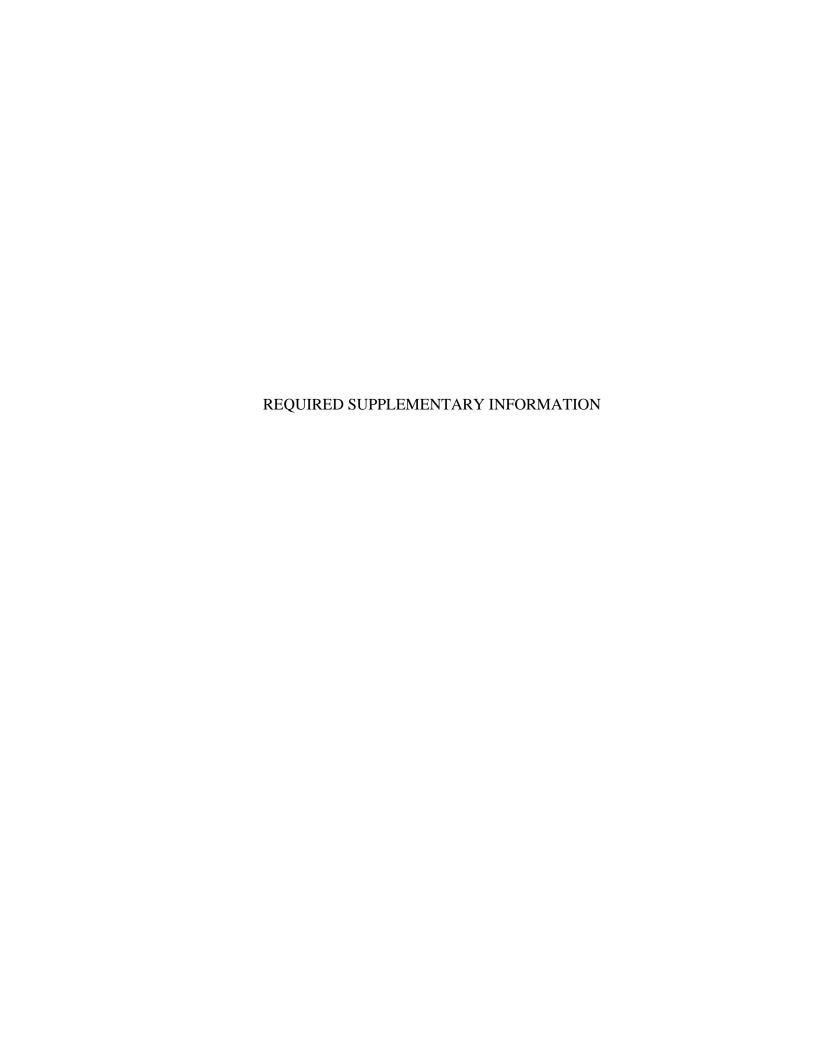

The offsetting prior period adjustment was made to the Airport Association Component Unit for a total decrease in net position of \$2,545,917.

# 19 - Change in Fund Structure

In the current year, the City evaluated certain funds to improve financial reporting. The evaluation included an analysis of GASB Statement No. 54 to ensure all changes were appropriate. This evaluation resulted in the following changes: 1) Park Improvement fund (previously a sub-fund of the General Fund) is now a non-major capital projects fund 2) Capital Improvement Reserve fund (previously a non-major special revenue fund) is now a sub-fund of the Capital Projects fund 3) Special Olympics Program and Mayor's Christmas Tree Program funds (previously sub-funds of the General Fund) are now Agency funds and 4) 167<sup>th</sup> Improvement fund (previously a sub-fund of the Capital Projects fund) was moved to a sub-fund of the Street Improvement fund. There was no material impact to total fund balance for governmental funds as a result of these changes.

#### 20 - Subsequent Events

Subsequent to year end, the City issued \$3,945,000 in General Obligation Bonds, Series 2015A, for the purpose of currently refunding the City's outstanding KDHE 2006 state-revolving fund Hillsdale loan.

# Note 1 - Significant Factors Affecting Trends in Actuarial Information

Changes in Actuarial Liability for the valuation completed at July 1, 2013 are primarily due to:

- The valuation interest rate was lowered from 5.0% to 4.5%. This is based on our analysis and correspondence with the investment advisors of MPR concerning the anticipated asset allocation and accompanying expected returns of the Health and Dental Fund.
- The assumed Medical / Rx trend rates were changed from 8.50% then grading down in increments of .5 percentage points to an ultimate of 5.00% <u>to</u> a starting trend of 7.00% grading down in increments of .25 percentage points to an ultimate of 5.00%. The assumed Dental trend was lowered from 4.00% to 3.75%.
- The turnover and retirement rates were updated where applicable to be based on the latest available rates from the applicable pension reports or other sources.
- Assumed mortality was updated to reflect improvement through 2018 based on recommendations of actuarial literature.
- Projected per capita retiree costs based on MPR and industry data, and retiree plan premiums, both increased more than expected.

#### **Nonmajor Governmental Funds**

# **Special Revenue Funds**

Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

Law Enforcement Trust Fund – This fund is used to account for monies forfeited to the City of Gardner Police Department relating to controlled substance investigation forfeitures. Expenditures from this fund shall be made only for authorized law enforcement purposes of the Gardner Police Department.

Special Alcohol/Drug Program Fund – This fund is used to account for special alcohol liquor tax revenues that are restricted for the purpose of funding programs for the education, treatment, and intervention of alcohol and drug abuse.

Special Parks and Recreation Fund – This fund is used to account for special alcohol liquor tax revenues that are restricted to expenditures for the purchase, establishment, maintenance, or expansion of park and recreational services, programs, and facilities.

East Santa Fe TIF District Fund – This fund is used to account for the captured ad valorem tax increment and sales tax increment from properties within the Redevelopment District created by Ordinance 2110, adopted June 21, 2004. The captured increments are to be used to reimburse the developer for "reimbursable project costs" as defined in the 175<sup>th</sup> and Cedar Niles Redevelopment Agreement dated January 3, 2005.

Economic Development Reserve Fund – This fund is used to account for transient guest tax revenues that are restricted for the purpose of convention and tourism promotion.

#### **Capital Projects Fund**

Park Improvement Fund – This fund is used to account for the receipt of park impact fees which are restricted for park and playground purposes. Additional revenue accounted for in this fund includes a portion of the Special County Sales and Use Tax.

Special Highway Fund – This fund is used to account for county/city revenue sharing of a portion of the State's motor fuel tax. These revenues are restricted to the construction and maintenance of streets, the repair and replacement of curbs, and the repair and construction of sidewalks within the City's boundaries.

Street Improvement Fund – This fund is used to account for receipt of the City's excise fee on platted land. The expenditures in this fund are specifically restricted for the purpose of improvement of existing streets and the construction of new streets necessitated by the City's new development growth.

City Hall – This fund is used to account for the PBC blended component unit.

#### **Debt Service Fund**

Park Sales Tax Fund – This fund is used to account for the sales tax revenues that are restricted to expenditures relating to the acquisition and construction of the new Celebration Park Complex and the Aquatics Center.

#### **Internal Service Funds**

Internal service funds are used to account for the financing of goods or services provided by one department to other departments of the City on a cost reimbursement basis.

Information technology services fund – This fund is used to account for the accumulation and allocation of costs associated with electronic data processing.

Building maintenance fund – This fund is used to account for the accumulation and allocation of costs associated with maintenance and miscellaneous repairs on city owned property.

Risk management fund – This fund is used to account for the accumulation and allocation of costs associated with the City's risk financing activities.

Utility billing services fund – This fund is used to account for the accumulation and allocation of costs associated with calculating and billing amounts owed for services provided by the City's utilities.

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the fiscal year ended December 31, 2014

STATISTICAL SECTION

### **Statistical Section**

This part of the City of Gardner's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

| Contents   | <b>Page</b> |
|--|-------------|
| Financial Trends  These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.  | 97 - 100    |
| Revenue Capacity  These schedules contain information to help the reader assess the factors affecting the City's ability to generate its most significant local revenue source, which is the electric, water and wastewater revenues, as well as its property taxes. | 101 - 109   |
| Debt Capacity  These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.   | 110 - 113   |
| Demographic and Economic Information  These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place and to help make comparisons over time with other governments. | 114 - 116   |
| Operating Information  These schedules contain information about the City's operations and resources to  | 117 - 118   |

**Sources:** Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The City of Gardner implemented GASB Statement 34 in 2003; schedules presenting government-wide information include information beginning in that year.

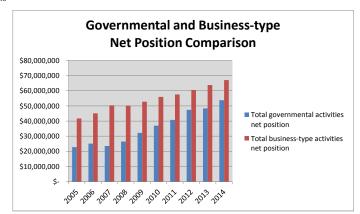

help the reader understand how the City's financial information relates to the

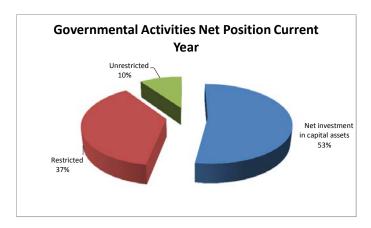

services the City provides and the activities it performs.

Notes: Electricity is presented in MegaWatt Hours and gallons are presented in millions.

Source: City of Gardner Public Works Department & Gardner Energy

<sup>(</sup>a) Unbilled amounts include electric, water, and sewer used by the City of Gardner for government operations, and also amounts sold to wholesale customers through the EMP#1 pool.

<sup>(</sup>b) In 2005, the City implemented interdepartmental billing, thus reducing the amount of unbilled electric usage.

<sup>(</sup>c) In 2005, the increase to gallons of wastewater treated was due to a significant increase in rainfall.

<sup>(</sup>d) Rates shown are for residential customers. For more detail on utility rates see the Electric, Water, and Sewer Rate schedule in this section.

<sup>(</sup>e) Per 1,000 gallons.

**Note:** Property in Johnson County is reassessed every year. The county assesses property at approximately 25 percent of actual value for commercial, 30 percent for agricultural, 12 percent for not-for-profit, and 11.5 percent for residential. Estimated actual taxable value is calculated by dividing taxable assessed value by those percentages. Tax rates are per \$1,000 of assessed value.

**Note:** One mill is \$1 of property tax for each \$1,000 of assessed valuation.

Source: Johnson County Department of Records and Tax Administration - County Clerk's Office

<sup>(</sup>a) During some of these years, there were both "Gardner with City Fire" and "Gardner - No Fire" mill rates because there were portions of Gardner that were assessed for fire protection by the Johnson County Fire District. In the interest of consistency, only "Gardner with City Fire" rates are shown here for those years in which there were mutiple "Gardner City" mill rates.

| Total direct and overlapping debt          |                         |  | \$ 109,387,935                                 |

**Notes:** Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. <sup>(a)</sup> For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the governmental unit's taxable assessed value that is within the City's boundaries and dividing it by each unit's total taxable assessed value.

One parcel within the City of Gardner was within the boundaries of Fire District No 1 when the District incurred debt in 2010, and is therefore considered debt-obligated even though it is no longer in the District and is property tax-exempt. The City does not anticipate the parcel becoming taxable in the foreseeable future and the City therefore has no overlapping debt with the Fire District.

Note: (a) In 2007, the City of Gardner Streets Dept. began a new resurfacing program using slurry seal. The savings allowed more linear feet to be completed in both streets and curbs.

Also in 2007, a new Aquatic Facility opened. The added features and capacity attracted patrons from miles around.

Note: (6) In 2010, the City of Gardner entered into a contractual agreement with Johnson County Fire District No. 1 to provide all fire services.
