COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the fiscal year ended December 31, 2012

INTRODUCTORY SECTION

June 25, 2013

The Honorable Mayor, City Council, Citizens, Taxpayers, and Other Interested Parties of the City of Gardner, Kansas:

We are pleased to present the Comprehensive Annual Financial Report (CAFR) of the City of Gardner (the City) for the fiscal year ended December 31, 2012. This is the ninth year that the City has prepared a CAFR, and staff has submitted this CAFR for a Certificate of Achievement for Excellence in Financial Reporting with the Government Finance Officers Association of the United States and Canada (GFOA). The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report that conforms to program standards. The CAFR must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements. A Certificate of Achievement is valid for one year only. We believe this report conforms to the Certificate of Achievement program requirements.

The report was prepared by the City's Finance Department. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the government. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

The City is responsible for establishing and maintaining internal control designed to ensure that the assets of the City are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. The internal control structure is designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management.

In addition, the City maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal requirements of Kansas Statutes. Activities of the General Fund, special revenue funds (unless exempted by a specific statute), enterprise funds, and the Debt Service Fund are included in the annual appropriated budget, as required by Kansas Statutes. Spending in funds which are not subject to said Statutes are controlled by federal regulations, other statutes, or by the use of internal spending limits established by the City.

As demonstrated by the statements and schedules included in the Financial Section of this report, the City continues to meet its responsibility for sound financial management.

Kansas Statutes Annotated 75-1122 requires an annual audit of the accounts, financial records, and transactions of all administrative departments of the City by independent certified public accountants. The accounting firm of Allen, Gibbs & Houlik, L.C. was selected by the City Council. The auditor's report on the financial statements is included in the Financial Section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the Government

The City of Gardner was established on March 16, 1858 and came under the jurisdiction of the State of Kansas in 1861. The City was incorporated as a Municipal Corporation of the third class in January 1887 and as a Municipal Corporation of the second class in December 2002. The City is located in Johnson County, Kansas, along Interstate 35, about 30 miles southwest of downtown Kansas City, Missouri. Johnson County, Kansas is considered to be one of the top growth areas in the state, and one of the top growth areas in the country. The 2010 census shows that Johnson County overtook Sedgwick County as the largest county in Kansas. Because of Gardner's location on the edge of the Kansas City metropolitan area, it serves as a suburban rural living area for individuals employed in the metropolitan area and also continues to serve the surrounding rural agricultural community.

The City has a Mayor-Council-Administrator form of government. There are five members of the City Council; the Mayor and Council Members are elected on an at-large ballot to serve a four-year term on a staggered basis.

The City is privileged to have a full range of services including police protection through its Police Department, fire services through Johnson County Fire District No.1, and ambulance services through Johnson County Med-Act. The City also provides municipal electric, water, and wastewater services, street maintenance, and engineering through its Public Works department. Other City of Gardner services include: planning, zoning, and codes enforcement, municipal court, comprehensive parks and recreational activities and facilities, and general administrative services.

The Governmental Accounting Standards Board has established the criteria to determine the financial reporting entity for a municipal government's financial report. This criterion is used to examine the relationship of the City to other associated but legally separate entities to determine if their inclusion in this report would be necessary to fairly present the financial position of the City. This criterion generally has to do with the financial benefit or burden and levels of influence over the activities of these associated, but legally separate, entities.

Using said criterion, it was determined that the City has both a blended component unit and a discretely presented component unit. The blended component unit - the Public Building Commission (PBC) - although a legally separate entity, is in substance, part of the City's operations. The discretely presented component unit is the Airport Association, which operates the municipal airport.

Economic Condition and Outlook

In the past decade, Gardner has experienced significant growth. This growth is expected to continue because the City benefits from its direct access to a unique combination of interstate, air and rail infrastructure: two intersections on Interstate 35, Burlington Northern Santa Fe's major rail transit route, New Century Air Center - a premier multi-modal business park – on the City's eastern side, and the nearly completed BNSF Intermodal facility on its western side. There is no other City in the region with this combination of access to multimodal infrastructure, ample developable land, professional staff, and a Governing Body clearly dedicated to development.

The City welcomed an estimated 668 new residents to the community in 2012 or about 1.8 new neighbors a day on average. There are over 20,000 people who now call Gardner home. Located in one of the fastest growing areas of the state, the City's population grew 120% between 2000 and 2012. Between 2003 and 2012, the number of people employed within the City increased from 1,643 to 2,272 – a 38% increase.

Enrollment in Gardner's award-winning school district continues to increase. In 2011, the City annexed an additional 40 acres of land for the construction of a new combined middle and elementary school campus for Unified School District No. 231.

A bond rating report prepared by Moody's Investors Service in March 2013 summarizes, "Residential development has been the primary driver of growth, as new residents, particularly young families, were attracted to affordable housing and high-quality schools within commuting distance to employment centers in the greater Kansas City, Missouri metropolitan area. While overall growth has slowed, we believe the city will continue to experience stable growth due to its location along I-35, which provides a direct route to Kansas City and other cities in the region."

Currently, Gardner is approximately 10.18 square miles in size. The City installed 1.48 miles of sewer lines, and 5 miles of new overhead and 2 miles of new underground electric distribution and transmission lines.

The City's assessed valuation increased 1% from 2011 to 2012; the City has experienced assessed valuation growth of 37% since 2006, and 106% since 2003. Wealth levels and housing values exceed state averages, and Johnson County's 2012 unemployment rate at 4.5% was lower than the state's rate of 5.5%, and far less than the national unemployment rate of 7.8%.

As a result of Management's due diligence, the City's current Moody's credit rating of Aa3 reflects healthy financial operations for the City. In the aforementioned bond rating report prepared by Moody's in March of 2013, Moody's noted Gardner's strengths including "stable financial operations with healthy reserves" and "above average residential wealth indices." Moody's explained in their report that although overall growth has slowed, continued commercial growth is expected because BNSF Railway Company is currently constructing a 1,000 acre intermodal and warehousing facility in the neighboring city of Edgerton which is expected to open for operations in the fall of 2013. Moody's report states, "While the intermodal facility will not be within the city limits, the entire region is expected to benefit from the additional jobs that will be created when the project is completed and fully operational."

In spite of the previous challenges created by the national economic downturn - which appear to be resolving - the City of Gardner continues to be a prosperous community. In addition to the

aforementioned high-quality schools, affordable housing, sound management and governing body leadership, Gardner also possesses a strong community spirit. With these combined attributes and under new leadership instilling best practices, Gardner will become a city of choice for both residents and the development community.

2012 Major Initiatives

Funding was approved in 2011 for the improvement of one of the City's busiest intersections at Center Street and Main Street. Construction of this project is funded by Kansas Department of Transportation (KDOT) through the Federal Funds Exchange Program. The City of Gardner is responsible for funding the engineering design, right-of-way acquisition, utility relocation, and construction observation. The concept plan for the intersection was developed in the US-56 Corridor Study and is intended to enhance safety as well as increase traffic capacity. In 2012, the City began right-of-way and easement acquisitions in anticipation of construction that will begin in the fall of 2013.

The City completed installation of nearly 200 new street light fixtures as part of a grant funded by the American Recovery and Reinvestment Act (ARRA). The new street light fixtures use new technology that will reduce energy costs and ultimately reduce CO₂ emissions.

In early 2012, the City agreed to partner with the neighboring City of Edgerton to construct a wastewater treatment plant in the Bull Creek basin. The facility will support the Burlington Northern Santa Fe (BNSF) Intermodal Facility/Logistics Park, surrounding communities and future development areas. Gardner and Edgerton will be evenly splitting the construction costs. Edgerton will own the plant and treat Gardner's wastewater which is needed to make the plant run efficiently until the area fully develops. The construction of this wastewater treatment plant will enable Gardner to delay the significantly larger cost to expand the City's existing Kill Creek Wastewater Treatment Plant. Added benefits of partnering with Edgerton in the construction of this treatment plant also include reducing the peak load and delaying planned expansions to some of Gardner's lift stations, and opening the southwestern portion of Gardner for development. Construction of the plant is 60 percent finished with an estimated mid-summer 2013 completion date.

Engineering design and project bidding was completed in late 2012 for extending public infrastructure that will serve a new elementary and middle school campus. The City and the Unified School District No. 231 (USD 231) created a benefit district and entered into a funding agreement to construct the new roadway, water line, and sanitary sewer improvements needed to service the new schools.

Future/Planned Initiatives

As a result of the previous downturn of the economy, current capital projects are minimal. However, with the BNSF Intermodal facility nearly completed in the neighboring city of Edgerton, the City is already experiencing an increase in commercial activity, as evidenced by commercial building permits issued for a new convenience store, trucking company, and bank.

The City has also seen increased interest in development of distribution warehouses, as the BNSF project is adjacent to the western city limits, and there is ample land available for development. Because distribution warehouses are a logical use for land near an intermodal facility, City officials expected requests for warehouse development, and proactively approved a revised tax abatement policy detailing the City's criterion for abatements, targeting certain areas of the city for warehouses, and requiring

review of the financial capacity and stability of the applicant to reasonably ensure the completion of quality projects in exchange for the abatement of future tax dollars. As the distribution warehouses will develop in "green fields" there will be future infrastructure projects to serve them.

As aforementioned, the City completed preliminary design, right-of-way acquisitions and relocated utilities in late 2012 in anticipation of construction of the Center Street and Main Street intersection to begin in early 2013. Construction will include the addition of turn lanes, traffic signal modifications, and associated site improvements to improve safety and relieve congestion. A grant through KDOT will pay for one-hundred percent of the total actual cost of construction for a maximum of \$870,000.

As the aforementioned new school campus will open in the fall of 2013, the City will have a condensed timeline to construct the infrastructure needed to serve it. The new infrastructure that will be constructed and funded equally between the City at large and the school district through a benefit district consists of a new collector roadway (Grand Street) with pedestrian and bicycle facilities, a traffic signal at the intersection of existing arterial Moonlight Road and the new Grand Street; a sanitary sewer connection between the school campus and the City's existing sanitary sewer; and a water line to provide service to the new schools.

In addition to the infrastructure to be constructed as part of the USD 231 benefit district, there are needed capacity improvements to the existing sanitary sewer system in order to serve the new school campus. The City is accelerating the previously planned White Drive Sanitary Sewer project to replace the sewer main between the BNSF railway tracks and approximately Washington Street and Brookside Park.

Progress continues on the joint Edgerton/Gardner Big Bull Creek Wasterwater Treatment Plant. The project includes a treatment plant with a capacity of 500,000 gallons per day, with the ability to expand to 3,000,000 gallons per day in later phases. Also included are two lift stations that will belong to Edgerton and one lift station that will belong to Gardner, with both gravity sewers and force mains associated with all three lift stations. All construction should be complete by July of 2013.

Financial Planning

The City expects 2013-2017 to be financially healthier years as revenues for both property and sales tax appear to be increasing. A combination of sales tax revenue which was better than expected and expenses that ended the year below budgeted levels contributed to the City's General Fund balance increasing to \$4,997,241, or a healthy 55% of revenues, at the end of fiscal 2012.

In 2013, under the leadership of the City's new City Administrator, Cheryl Harrison-Lee, and newly elected Mayor Chris Morrow, the City is implementing the best practice of Priority-Based budgeting which allocates resources in the budget with desired outcomes and results identified by the Governing Body.

Following a series of workshops with the business community and a subsequent, facilitated work session to reach consensus, the Governing Body identified four strategic goals to be used to guide funding decisions in the City's 2014 – and future – budget. The Governing Body's four strategic goals are to promote economic development, improve the citizens' quality of life, fiscal stewardship, and infrastructure/asset management.

The City's future 2014 budget will include significant funding to facilitate various aspects of economic development including approved allocation for a Comprehensive Development Plan and the development of an economic development strategy. This is a continuation of the Governing Body's intense focus on economic development, as in 2013 they approved the appointment of a new Community Development Director and several new positions to rebuild the Community Development Department which was previously down-sized due to the economic downturn.

Other significant projects with approved budget allocation will be a complete revision of the City's information technology infrastructure including all components necessary to implement a business continuity/disaster recovery plan.

Additionally, current and future savings will be realized as a significant number of employees have migrated to a high-deductible health care plan. Health care costs will continue to be a topic of discussion for future budgets, and the City has taken steps to both keep their employees healthy and mitigate ongoing costs. These proactive measures included incenting employees to migrate to the high-deductible plan with City funding into employees' Health Savings Accounts and allowing employees to see their physicians for "wellness" examinations without having to use their accrued leave time.

Finally, as the BNSF intermodal facility nears completion, the City will undertake the construction of a "quiet zone" by modifying an existing intersection in the residential area of town nearest the facility to alleviate increased train whistles.

The City is not proposing any increases in the 2014 mill levy; all of these initiatives will be implemented through both the realignment of existing resources and the use of excess reserve funds in the General Fund.

Reviewing projections for 2013-2017 reveals that property tax revenues are anticipated to slowly increase in the General Fund; between 2013-2017 the City shows a projected increase from 1% to 3% increase in valuation. However, there is a gap in revenues to expenditure that may reduce fund balance below the City's policy of 25% for 2016-2017. Always mindful of projections, management will continue to realign their business plans. Many changes are expected during the 5-year period, not only as a result of moving to priority-based budgeting to facilitate the Governing Body's strategic goals, but also as a result of changes to the City's executive team. The City will have new directors in Public Works to replace the retired director and a new Police Chief to replace the previous long-serving, deceased Chief, in addition to the previously appointed Community Development Director. Obviously, revisions can be expected in the business plans of these departments and their associated budgets, so the projections of the fund balance in the General Fund below a desired 25% may be easily resolved.

The City continues to assess its utility rates in relation to current and future costs. In recent years, the City began transferring money from operating revenues to debt service to cover declining growth-related revenues caused by the significant decrease in new construction. The Water Fund projects approximately 8% rate increases per year from 2013-2016 before dropping off to zero in 2017 when much of the infrastructure debt associated with the aforementioned rapid growth is paid off. The Wastewater Fund is in a similar situation; the Wastewater Fund projects approximately 8-11% increases per year from 2013-2016 before dropping to zero in 2017.

As new leadership tasked with new strategic goals facilitates the Governing Body through a Capital Improvements discussion, and as increased warehouse and other development activity becomes reality, projections past 2014 will likely be completely revised. Management will continue to monitor the reserves and will take whatever corrective actions are necessary to maintain the desired reserve level, as evidenced by past financial performance and the aforementioned investment grade Moody's credit rating of Aa3.

Acknowledgements

The preparation of this report could not have been accomplished without the support and cooperation of the Governing Body, Administration, other City departments, external auditors, and the efficient, dedicated efforts of the entire staff of the Accounting Department. In addition, special thanks are extended to various Southwest Johnson County Economic Development Corporation and Johnson County staff for their contribution to the Statistical section of this document. Credit must be given to the Governing Body for their support in maintaining the highest standards of professionalism in the management of Gardner's finances.

Sincerely,

Cheryl Harrison-Lee City Administrator

Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of Gardner Kansas

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
December 31, 2011

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the fiscal year ended December 31, 2012

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and City Council Members City of Gardner, Kansas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Gardner, Kansas (City) as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the *Kansas Municipal Audit and Accounting Guide*, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Gardner, Kansas, as of December 31, 2012, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information listed on the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements and schedules and the introductory and statistical sections as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 25, 2013 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Allen, Gibbs & Houlik, L.C. CERTIFIED PUBLIC ACCOUNTANTS

June 25, 2013 Wichita, Kansas

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Gardner (City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2012. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

FINANCIAL HIGHLIGHTS

- The assets of the City exceeded its liabilities at the close of 2012 by \$107,905,480 (net position). Of this amount, \$14,085,799 (unrestricted net position) may be used to meet the City's ongoing obligations to citizens and creditors.
- The City's total net position increased by \$9,548,470 during the fiscal year.
- As of the close of 2012, the City's governmental funds reported combined ending fund balances of \$11,587,269. Approximately 43 percent of this total amount, \$4,997,241, is unassigned fund balance available for spending at the City's discretion.
- At the close of the current fiscal year, fund balance for the City's primary operating fund, the General Fund, was \$4,997,241 or 55% of the total general fund revenues of \$9,127,808.
- The City's total long-term debt decreased by \$38,503 during the fiscal year. A combination of aggressive debt retirement and few new projects contributed to the decrease.

OVERVIEW OF THE FINANCIAL STATEMENTS

The City's financial report consists of the following parts:

- Management's discussion and analysis;
- The basic financial statements, which include the government-wide and the fund financial statements, along with the notes to the basic financial statements;
- Combining and individual statements and schedules for non-major funds
- Statistical section

The basic financial statements of the City include the government-wide financial statements and the fund financial statements. The notes to the financial statements follow the basic financial statements and are essential for the reader's understanding of the financial statements. Other supplementary information, including the statistical section, is also included at the end of this report to provide additional information for the reader.

Government-wide Financial Statements

The government-wide financial statements present the results of the City's operations using the accrual basis of accounting, the basis of accounting used by private-sector businesses. These statements focus on the long-term financial picture of the City as a whole.

The *Statement of Net Position* reports all of the City's assets and liabilities. Net position, the difference between assets and liabilities, is an important measure of the City's overall financial health. Over time, the increases and decreases in net position can be monitored to determine whether the City's financial position is improving or deteriorating.

The *Statement of Activities* shows how the net position changed during the most recent fiscal year. The unique feature of this statement is how it shows the revenues and expenditures related to specific programs and how much of the programs were supported by the general taxes of the City. Since this statement is prepared on the accrual basis of accounting, all revenues and expenditures are included, regardless of when cash is actually received.

Both statements show the operations of the City broken down by governmental activities and business-type activities. Governmental activities are the operations of the City generally supported by taxes, such as public works, public safety, parks and recreation, and general administration. Business-type activities are operations of the City that are intended to recover all or a significant portion of their costs through user fees and charges. These consist of the four utilities the City operates: electric, water, wastewater, and storm water.

Fund Financial Statements

The City uses three types of funds to manage its resources: Governmental Funds, Proprietary Funds, and Fiduciary Funds. A fund is a fiscal entity with a set of self-balancing accounts recording financial resources, together with all related liabilities and equity, and the changes therein. These accounting entities are separated for the purpose of carrying on specific activities or attaining certain objectives in accordance with regulations, restrictions, or limitations.

Governmental Fund financial statements are prepared on the modified accrual basis. Under the modified accrual basis, revenues are recognized when they become measurable and available, and expenditures are recognized when the related fund liability is incurred, with the exception of long-term debt and other similar items, which are recorded when due. The focus, therefore, is on the short-term financial picture of the operations reported rather than the City as a whole. Most of the City's basic operations are reported in the Governmental Fund financial statements. The information reported in these statements can be compared to the governmental activities information in the government-wide statements. The reconciliation at the end of the fund financial statements details the relationship between the two types of financial statements.

The City maintains 13 individual governmental funds. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund, debt service fund and capital projects fund, all of which are considered to be major funds. Data from the other 10 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary Funds are used by the City to account for activities that operate similar to commercial enterprises found in the private sector. Funds that charge fees for services provided to outside customers including other local governments are called Enterprise Funds. These funds are used to report the same

functions presented as business-type activities in the government-wide financial statements. Funds that charge fees for services provided to departments within the reporting government are known as Internal Service Funds. Proprietary Funds use the accrual basis of accounting; thus, the only reconciling items needed between the government-wide financial statements for business-type activities and the proprietary fund financial statements relate to the elimination of internal service fund activity.

The City has four enterprise funds: Electric Fund, Water Fund, Wastewater Fund and the Storm Water Fund. The City has four Internal Service Funds: Risk Management Fund, Information Technology Services Fund, Building Maintenance Fund, and the Utility Billing Services Fund. The Electric Fund, Water Fund, and Wastewater Fund are the only funds being considered major funds for presentation purposes.

Fiduciary Funds are used by the City to account for resources held by the City for the benefit of a third party. Because the resources of these funds are not available for the City's operations, they are not presented in the government-wide financial statements.

Notes to the Financial Statements

The notes to the financial statements are an integral part of the basic financial statements because they contain valuable additional information necessary for gaining a complete understanding of the City's financial statements.

Other Information

In addition to the financial statements and the notes described above, required supplementary information concerning the City's progress in funding its obligation to provide postemployment benefits to its employees and supplementary information regarding non-major funds have been included to give the reader further information.

ANALYSIS OF THE GOVERNMENT-WIDE STATEMENTS

Analysis of Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities (net position) by \$107,905,480 at the close of 2012. The City's net position increased by \$9,548,470 from the prior year, with governmental activities accounting for \$6,565,254 of the increase, and business-type activities accounting for \$2,983,216 of the increase.

City of Gardner, Kansas Net Position

| Net position: | | | | | | | |
| Net investment in | | | | | | | |
| Capital assets | 17,955,758 | 20,316,915 | 51,630,963 | 48,330,111 | 69,586,721 | 68,647,026 | |
| Restricted for: | | | | | | | |
| Debt service | 18,307,114 | 13,873,779 | - | - | 18,307,114 | 13,873,779 | |
| Capital projects | 4,874,557 | 698,492 | - | - | 4,874,557 | 698,492 | |
| Streets improvements | 849,816 | 1,335,404 | - | - | 849,816 | 1,335,404 | |
| Economic development | 158,243 | 145,918 | - | - | 158,243 | 145,918 | |
| Other purposes | 43,230 | 74,301 | - | - | 43,230 | 74,301 | |
| Unrestricted | 5,166,777 | 4,345,432 | 8,919,022 | 9,236,658 | 14,085,799 | 13,582,090 | |
| Total net position | \$47,355,495 | \$40,790,241 | \$60,549,985 | \$57,566,769 | \$107,905,480 | \$98,357,010 | |

The largest portion of the City's net position (65%) reflects its investment of \$69,586,721 in capital assets (e.g., land, buildings, infrastructure, construction in progress, machinery, and equipment); less any related debt used to acquire those assets that are still outstanding. The City uses these capital assets to provide services to citizens; consequently, these are not available for future spending.

An additional \$24,232,960 of the City's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of the City's net position of \$14,085,799 (\$5,166,777 governmental activities and \$8,919,022 business-type activities) is unrestricted and may be used to meet ongoing obligations to citizens and creditors.

Analysis of Changes in Net Position

As stated earlier, the City's net position increased by \$9,548,470 during the 2012 fiscal year. The following table reflects the revenues and expenses for the City's activities for the year ended December 31, 2012, and illustrates the comparison between 2012 and the prior year:

Governmental Activities

Governmental revenues increased \$3,136,247 from the prior year. The key component of this increase was \$2,616,287 from a newly assessed benefit district. Contributing to the revenue increase was an increase in excise tax of \$259,007 from newly plotted land for an elementary and middle school campus. Additionally, property and sales tax revenues have increased due to a stabilizing economy.

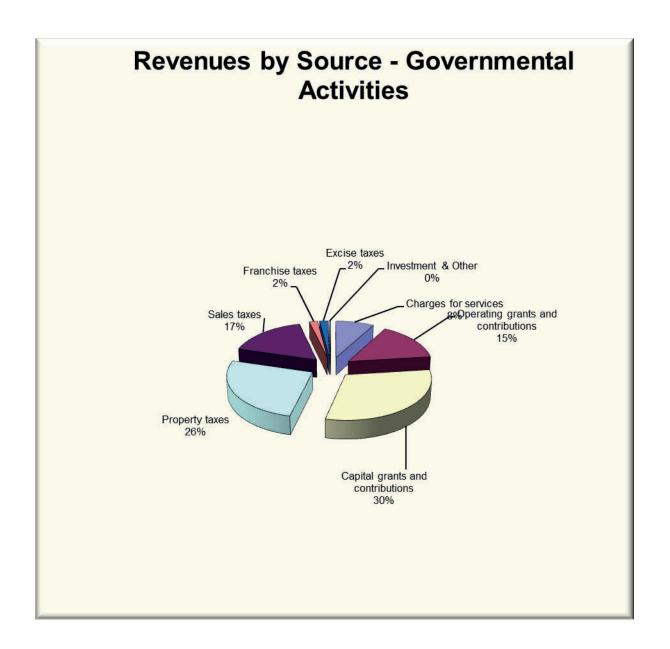

Total governmental expenses increased by \$482,118 from the prior year. Expenses increased slightly in all areas due to projects being completed that had been delayed during the downturn of the economy.

The chart below illustrates how the City's various governmental activities program revenues vs. program expenses fared in 2012.

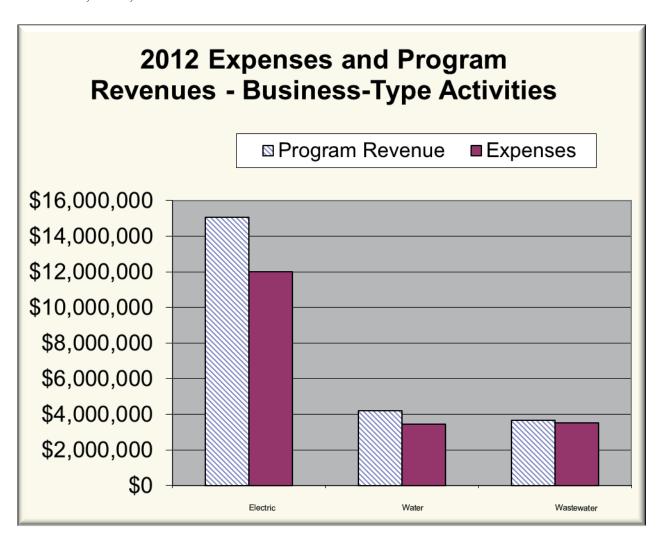

General government program revenues include the amount of building permit and related inspection fees, special assessment mowing, miscellaneous airport revenue, as well as fines and forfeitures collected by the Municipal Court department during the year.

Overall program and general revenues for the City's governmental activities are:

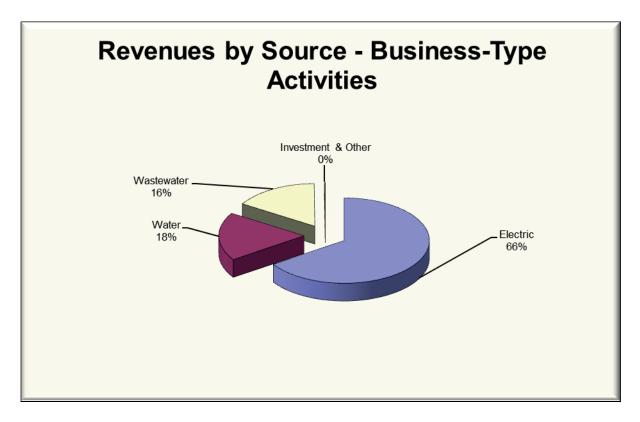

Business Type Activities

The City's net position related to business-type activities increased by \$2,983,216, up from an increase of \$1,556,815 in net position for 2011. The City implemented utility rate increases of 3% in water rates and a 6% increase to the wastewater base rate; electric rates were unchanged. The program revenues vs. program expenses for business-type activities chart below illustrates an overall increase in net position for electric, water, and wastewater.

Overall program and general revenues for the City's business type activities are:

FINANCIAL ANALYSIS OF THE CITY'S FUNDS:

The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of resources that are available for spending. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year. Types of Governmental funds reported by the City include the General Fund, Debt Service Fund, Capital Projects Fund and Special Revenue Funds.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$11,587,269, an increase of \$4,356,753 in comparison with the prior year. Approximately 45% of this total amount or \$5,168,291 constitutes fund balance that is available to meet the City's current and future needs. The remainder of the fund balance totaling \$6,418,978 is restricted for specific spending.

The General Fund is the chief operating fund of the City. At the end of 2012, unassigned fund balance of the General Fund was \$4,997,241. As a measure of the general fund's liquidity, it may be useful to compare unassigned fund balance to total fund expenditures. Unassigned fund balance represents 56% of total General Fund expenditures of \$8,935,651.

The fund balance in the City's general fund has increased by \$630,849 during 2012. This increase is largely due to increased property tax revenues.

The capital projects fund has a fund balance of \$4,510,640. This is an increase of \$4,102,426 from the prior year. The increase is due to receiving bond proceeds of \$3,995,000 to finalize debt for completion of the Kill Creek Sewer project.

The debt service fund has a fund balance of \$493,029, of which all is restricted for the payment of debt service. The net increase in the fund balance during the current year was \$119,159. This was due to increased taxes received from prior year mill levy increase.

Proprietary funds

The City's proprietary funds financial statements provide the same type of information found in the government-wide financial statements, but in more detail.

At the end of 2012, unrestricted net position for the business-type activities amounted to \$8,904,185. The total increase in net position during the current fiscal year was \$2,991,776.

The Electric Fund had total net position of \$30,965,187 at the end of 2012. This is an increase of \$2,291,681 from the previous year. This is largely due to an increase in the charges for services category.

The Water Fund had total net position of \$15,453,542 at the end of 2012. This is an increase of \$110,487 from the previous year.

The Wastewater Fund had total net position of \$13,496,746 at the end of 2012. This is an increase of \$614,775 from the previous year. The increase is due to sustained operating income.

The City's Internal Service Funds had total net position of \$41,314 at the end of 2012.

Fiduciary funds

The City maintains a fiduciary fund for the assets of the Alcohol Safety Action Program. This fund accounts for the amount collected from municipal court to be remitted to the State of Kansas. At the end of 2012, the assets of the fund were \$34,355.

GENERAL FUND BUDGETARY HIGHLIGHTS:

There was no difference between the original budget and the final budget. During the year, however, total revenues were more than budgetary estimates by \$1,234,089. A summary of differences between budgetary estimates for revenue and actual collections is as follows:

- Property tax collections were more than the original estimate by \$230,338.
- City sales and use tax revenue were more than estimated by \$139,801. This is due to slight improvement in economic conditions.
- Franchise tax collections were less than the original budget by \$81,773. The majority of this decrease was due to a decrease in gross receipts for natural gas.

- Intergovernmental revenues were more than the original budget by \$722,499. Revenues for County sales and use tax were up as a result of a stabilizing economy.
- Licenses and permits were more than the original estimate by \$133,174.
- Fines and fees were more than the original estimate by \$84,719. Fines and Fee collections were up from the prior year by \$45,961.

In addition, expenditures were less than budgeted by \$2,381,595. Project reserves of \$2,096,810 were budgeted but not utilized.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The City's investment in capital assets for its governmental and business type activities as of December 31, 2012, amounted to \$144,973,979 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings, improvements, machinery and equipment, vehicles, roads, water lines, sewer collectors and electric lines.

More detailed information about the City's capital assets is presented in Note 6 to the Basic Financial Statements.

Long-Term Debt

At the end of 2012, the City had total long-term debt outstanding of \$74,186,984. Of this amount, \$32,900,000 was general obligation debt backed by the full faith and credit of the City. However, \$25,850,450 of the general obligation debt is supported by business-type revenues. Another \$13,425,000 of the City's long-term debt outstanding is special assessment debt for which the City is liable in the event of default by the property owners subject to the assessment.

In 2012, the City issued refunding bonds to achieve interest rate savings on a 2002 irrevocable lease agreement with the Public Building Commission (PBC), a separate, not-for-profit corporation formed for the sole purpose of financing the remodeling and enlarging of City Hall. The purpose of the lease agreement is for the City to rent the building financed by the PBC Lease Revenue bonds. The rental

payments are the same as the scheduled debt payments, and because the lease is irrevocable, the City is liable for the associated revenue bonds.

In 2006, the City purchased \$7,150,000 of Certificates of Participation to fund Celebration Park. The debt is paid for with a ten-year ½ cent sales tax increment voters approved in 2005.

City of Gardner's Long-Term Debt December 31, 2012

| | \$36,555,644 | \$34,980,596 | \$38,961,340 | \$39,244,891 | \$75,516,984 | \$74,225,487 | |

The City's total long-term debt decreased \$38,503 during the current fiscal year. The City issued \$11,745,000 of new general obligation bonds and increased construction loans payable by \$4,054,400 during 2012. This was reduced by \$5,025,000 in general obligation bonds, \$3,960,000 in bond anticipation notes and \$14,077,903 in construction loans.

The City maintains an "Aa3" rating from Moody's for its general obligation bonds. State statutes limit the amount of general obligation debt a government entity may issue to 30 percent of its total assessed valuation. The current debt limitation for the City is \$44,524,646, which is significantly in excess of the City's outstanding general obligation bonds.

More detailed information about the City's long-term debt is presented in Note 12 to the basic financial statements and information regarding bond anticipation notes in Note 13.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City's finances for all interested parties. Questions concerning any of the information provided in this report or requests for additional information should be addressed to: Finance Department, 120 East Main, Gardner, Kansas 66030.

STATEMENT OF NET POSITION

December 31, 2012

RECONCILIATION OF THE BALANCE SHEET OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION

December 31, 2012

| Total fund balances in Governmental Funds Balance Sheet | \$ 11,587,269 |
|---|------------------|
| Amounts reported for governmental activities in the statement of net assets are different because: | |
| Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. | 54,631,020 |
| Other long-term assets are not available to pay for current-period expenditures and therefore are deferred in the funds. | 18,162,135 |
| Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds. | (37,044,050) |
| Internal service funds are used by management to charge the costs of building maintenance and information technology services to individual funds. The assets and liabilities of certain internal service funds are included in | |
| governmental activities in the statement of net position. | 19,121 |
| Net position of governmental activities | \$ 47,355,495 |

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

Year Ended December 31, 2012

Amounts reported for governmental activities in the statement of activities are different because:

| Net change in fund balances - total governmental funds | \$ 4,356,753 |
|--|-----------------|
| Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. | (458,642) |
| The net effect of various miscellaneous transactions involving capital assets (i.e. sales, trade-ins and donations) is to decrease net position | (6,973) |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. | 4,217,532 |
| The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. | (1,575,048) |
| Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. | 39,819 |
| Internal service funds are used by management to charge the costs of building maintenance and information technology services to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities. | (8,187) |
| Change in net position of governmental activities | \$ 6,565,254 |

STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES - BUDGET AND ACTUAL

NOTES TO BASIC FINANCIAL STATEMENTS

1 - Summary of Significant Accounting Policies

Reporting Entity

The City of Gardner, Kansas (the City) is located in Johnson County, Kansas and was first incorporated in 1887 under the provisions of the constitution and general statutes of the State of Kansas. The City operates under a Mayor-Council-Administrator form of government and provides a full range of services including public safety (police and fire); public works; community services; recreation and leisure; planning and codes enforcement; general management; and electric, water, wastewater, and stormwater utilities. The accompanying financial statements present the City and its component units, entities for which the City is considered to be financially accountable. The blended component unit, although a legally separate entity, is, in substance, part of the City's operations. The discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the City.

Blended Component Unit. The Public Building Corporation (PBC) is a not-for-profit corporation governed by the Mayor, certain City Council members and members of the City's management. The PBC's sole purpose is to acquire assets and construct facilities and infrastructure for the benefit of the City through the issuance of revenue bonds pursuant to Kansas Statute 12-1757. The financial statements of the PBC have been included within the City's reporting entity as a capital projects fund (City Hall). Separately issued financial statements of the PBC are not available.

Discretely Presented Component Unit. The Airport Association is a not-for-profit corporation that operates the municipal airport located in the City and promotes economic development at the facility. The governing body of the Airport Association is appointed by the City Council. The Airport Association must obtain the City's approval before issuing debt and the City has also issued debt for the Airport Association. The Airport Association's revenue is derived from the rental of hangar and building space, the sale of fuel and the sale of crops grown on airport property. The Airport Association is presented as a proprietary fund. Separately issued financial statements for the Airport Association are not available.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

1 - Summary of Significant Accounting Policies (Continued)

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component unit. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from the legally separate component unit for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. The agency fund does not have a measurement focus and uses the accrual basis of accounting to report its financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

1 - Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. A 90-day availability period is used for revenue recognition for all governmental funds revenues except property taxes for which a 60-day availability period is used. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended for the specific purpose or project before any amounts will be paid to the City; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed requirements. These resources are reflected as revenues at the time of receipt, or earlier if the susceptible to accrual criteria are met.

Property taxes, sales taxes, franchise taxes, interest associated with the current fiscal period, and certain state and federal grants and entitlements are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City. While property taxes are shown on the balance sheet as current assets of the City, they are not recognized as revenue at year end because statutory provisions prohibit their use until the year for which they were raised and budgeted. Instead, they are offset by deferred revenue accounts.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

1 - Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The City reports the following major governmental funds:

The general fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. This fund accounts for the general operating transactions of the City including public safety, public works, parks, recreation, and administration.

The debt service fund accounts for the resources accumulated and payments made for principal and interest on long-term debt of governmental funds.

The capital projects fund is used to account for the acquisition and construction of major capital facilities other than those financed by enterprise funds.

The City reports the following major proprietary funds:

The electric fund accounts for the operation and maintenance activities of the City's electric distribution system.

The water fund accounts for the operation and maintenance activities of the City's water distribution system.

The wastewater fund accounts for the operation and maintenance activities of the City's wastewater collection and treatment system.

Additionally, the City reports the following fund types:

The agency fund accounts for the amounts collected from the municipal court to be remitted to the State of Kansas.

Internal service funds account for risk management, information technology, building maintenance and utility billing services provided to other departments on a cost reimbursement basis.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

1 - Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. An exception to this rule is charges between the City's enterprise funds and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the electric, water, wastewater and stormwater funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

1 - Summary of Significant Accounting Policies (Continued)

Pooled Cash and Investments

Cash and investments of the individual funds are combined to form a pool that is managed by the Director of Finance. Each fund's equity in the pool is included in "deposits and investments" in the financial statements. These pooled deposits and investments consist of operating accounts, money market mutual funds, pooled municipal investment pool and United States Treasury Notes. The money market mutual funds, pooled municipal investment pool and treasury bills are recorded at fair value. The pool is not an SEC registered pool. The Pooled Money investment board (PMIB) provides the regulatory oversight for this pool. The reported value of the pool is the same as the fair value of the pool shares. Investment earnings, including interest income, are allocated to the funds required to accumulate interest; other investment earnings are allocated based on management discretion and upon their average daily equity balances. If a fund is not required to account for its own earnings by law or regulation, the earnings are allocated to the General Fund.

For the fiscal year ended December 31, 2012, interest earnings of \$60,707 were allocated to the various funds.

The City Hall capital projects fund holds money market mutual funds totaling \$103 separate from the pooled cash and investments.

Statement of Cash Flows

For purposes of the statement of cash flows, the City considers deposits and highly liquid investments with an original maturity of three months or less to be cash equivalents. At December 31, 2012, cash equivalents consisted of money market mutual funds included in pooled cash described above.

Allowances for Uncollectibles

All trade and property tax receivables are shown net of an allowance for uncollectibles. Trade accounts receivable in excess of 238 days comprise the trade accounts receivable allowance for uncollectibles. The property tax receivable allowance is equal to 8.66% of outstanding property taxes at December 31, 2012.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

1 - Summary of Significant Accounting Policies (Continued)

Restricted Assets

The State of Kansas requires the City to maintain customer utility and developer deposits separate from City assets in the enterprise funds. Interest earned on deposits is credited back to customers as required by State statutes. Restricted deposits and investments are also set aside for capital projects.

Property Taxes

The City's property tax is levied each year on the assessed value of all real estate listed as of the prior January 1, the lien date. Assessed values are established by Johnson County. The assessed value at January 1, 2011 upon which the 2012 levy was based was approximately \$128,540,006.

Property taxes are legally restricted for use in financing operations of the ensuing year. Accordingly, the City defers revenue recognition until the year for which they are to be used. Property taxes are levied on November 1 of each year. Property owners have the option of paying one-half of the full amount of the taxes levied on or before December 20 during the year levied with the balance to be paid on or before May 10 of the following year. Property taxes become delinquent on December 20 of each fiscal year if the taxpayer has not remitted at least one-half of the amount due. The Johnson County Treasurer is the tax collection agent for all taxing entities within the County. Property taxes levied in prior years that remain uncollected are recorded as receivables, net of estimated uncollectibles.

Receivable and Payables

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. Deferred revenue is reported as follows:

| General fund property taxes receivable | \$ 2,712,426 |
|--|------------------|
| Debt service fund property taxes receivable | 941,974 |
| Debt service fund special assessments receivable | 18,236,589 |
| | |
| | \$ 21,890,989 |

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

1 - Summary of Significant Accounting Policies (Continued)

Inventories

Inventories consist of expendable supplies and merchandise held for consumption. All inventories are valued at the lower of cost using the first-in/first-out (FIFO method) or market.

Capital Assets

Capital assets, which include property, plant, equipment, infrastructure (e.g., roads, bridges, sidewalks and similar items) and construction in progress are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined as assets with an initial individual cost of more than \$10,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the primary government, as well as the component unit, are depreciated using the straight-line method over the following estimated useful lives.

| Buildings and improvements | 20 - 40 years |
|----------------------------|---------------|
| Machinery and equipment | 10 years |
| Vehicles | 10 years |
| Infrastructure | 15 - 50 years |

The City acquired water rights during 2008 for \$475,000 which is reported in the water fund and business-type activities column in the government-wide financial statements as a capital asset. The water rights acquired are considered to have an indefinite life. As a result, no amortization will be taken on the acquired rights.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

1 - Summary of Significant Accounting Policies (Continued)

Compensated Absences

The City's policies allow up to one and one half times employees' earned rates of vacation to be carried over to subsequent years. This carryover is payable upon separation from service and ranges from 120 to 240 hours depending upon the employee's length of service.

All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. In the governmental fund financial statements, a liability for these amounts is reported only when they have matured, for example, as a result of employee resignations and retirements.

Sick leave for full-time employees is earned at the rate of approximately four hours per bi-weekly pay period with a maximum accumulation of 1,040 hours. Regular part-time employees accrue sick leave at a proportional rate to full-time employees. Accumulated sick pay is not vested, and therefore is not recorded in the financial statements.

Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

1 - Summary of Significant Accounting Policies (Continued)

Fund Balances

As prescribed by GASB Statement No. 54, governmental funds report fund balance classifications based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. As of December 31, 2012, fund balances for governmental funds are made up of the following:

Nonspendable fund balance – includes amounts that are (a) not spendable in form, or (b) legally or contractually required to remain intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example: inventories, prepaid amounts, and long-term notes receivable.

Restricted fund balance – includes amounts that can be spent only for the specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may effectively be changed or lifted only with the consent of resource providers.

Committed fund balance – includes amounts that can only be used for specific purposes determined by a formal action of the City's highest level of decision-making authority, the City Council. Commitments may be changed or lifted only by the City Council taking the same formal action that imposed the restraint originally.

Assigned fund balance – includes amounts intended to be used by the City for specific purposes that are neither restricted nor committed. Intent is expressed by (1) the City Council or (2) a body or official to which the City Council has delegated the authority to assign amounts to be used for specific purposes.

Unassigned fund balance – is the residual classification for the General Fund and includes all amounts not contained in other classifications. Unassigned amounts are technically available for any purpose.

In circumstances when an expenditure is made for a purpose for which amounts are available in multiple fund balance classifications, fund balance is depleted in the order of restricted, committed, assigned, and unassigned.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

1 - Summary of Significant Accounting Policies (Continued)

Net position

The government-wide statement of net position reports \$24,232,960 of restricted net position, of which \$849,816 is restricted by enabling legislation.

Concentrations of Credit Risk

Loans are extended, on a fully secured basis, to local businesses under an economic development loan program. Credit is extended to citizens for special assessments levied by the City for capital improvements. These special assessments are secured by liens on the related properties. Unsecured credit is extended to customers for electric, water and sewer fees and charges for services.

Intergovernmental receivables include unsecured amounts due from federal, state and county agencies for various grant programs.

<u>Use of Estimates</u>

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

1 - Summary of Significant Accounting Policies (Continued)

Pending Governmental Accounting Standards Board Statements

At December 31, 2012, the Governmental Accounting Standards Board (GASB) had issued statements not yet implemented by the City. The statements that might impact the City are as follows:

GASB Statement No. 61, The Financial Reporting Entity: Omnibus, was issued in November 2010. This Statement modifies certain requirements for inclusion of component units in the City's financial statements when the component unit was included based on the fiscal dependency requirement. The new statement clarifies the manner in which a government's management determines a component unit should be included, even if the financial accountability criterion is not met. This Statement also amends the criteria for reporting component units as if they were part of the primary government (that is, blending) when the component unit is blended based on the "substantively in the same governing body" criterion. New criteria also are added to require blending of component units whose total debt outstanding is expected to be repaid entirely or almost entirely with resources of the primary government. The provisions of this statement are effective for financial statements for the City's fiscal year ending December 31, 2013.

GASB Statement No. 65, Items Previously Reported as Assets and Liabilities, was issued in March 2012. This statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reports as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. Also, this statement provides other financial reporting guidance related to the impact of the financial statement elements deferred outflows and inflows of resources, such as changes in determination of the major fund calculations and limiting the use of the term deferred in the financial statement presentations. The provisions of this statement are effective for financial statements for the City of Gardner's fiscal year ending December 31, 2013 with earlier application encouraged.

GASB Statement No. 68, Accounting and Financial Reporting for Pensions, was issued in June 2012. This statement establishes accounting and financial reporting by state and local governments for pensions, including entities that participate in cost-sharing multiple-employer plans. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This statement replaces the requirements of Statement No. 27, Accounting for Pensions by State and Local Governmental Employers, as well as the requirements of Statement No. 50, Pension Disclosures, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements that meet certain criteria. Also, this statement establishes standards for measuring

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

1 - Summary of Significant Accounting Policies (Continued)

Pending Governmental Accounting Standards Board Statements (Continued)

and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. For example, cost-sharing employers participating in KPERS, such as the City of Gardner, will be required to record its proportionate share, as defined in Statement No 68, of the KPERS unfunded pension liability. While management of the City has not yet estimated its share of the KPERS liability, it is presumed that the amount will be material to the the City's financial statements. The provisions of this statement are effective for financial statements for the City of Gardner's fiscal year ending December 31, 2015.

GASB Statement No. 69, Government Combinations and Disposals of Government Operations, was issued in January 2013. This statement establishes accounting and financial reporting standards related to government combinations and disposals of government operations. This statement also provides guidance for transfers of operations that do not constitute entire legally separate entities and in which no significant consideration is exchanged. This statement requires disclosures to be made about government combinations and disposals of government operations to enable financial statement users to evaluate the nature and financial effects of those transactions. The provisions of this statement are effective for financial statements for the City of Gardner's fiscal year ending December 31, 2016 with earlier application encouraged.

GASB Statement No. 70, Accounting and Financial Reporting for Nonexchange Financial Guarantees, was issued in April 2013. The objective of this statement is to improve accounting and financial reporting by state and local governments that extend and receive nonexchange financial guarantees. This statement requires a government that extends a nonexchange financial guarantee to recognize a liability when qualitative factors and historical data, if any, indicate that it is more likely than not that the government will be required to make a payment on the guarantee. This statement requires a government that has issued an obligation guaranteed in a nonexchange transaction to report the obligation until legally released as an obligor. This statement specifies the information required to be disclosed by governments that extend nonexchange financial guarantees. In addition, this statement requires new information to be disclosed by governments that receive nonexchange financial guarantees. The provisions of this statement are effective for financial statements for the City of Gardner's fiscal year ending December 31, 2014 with earlier application encouraged.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

2 - Reconciliation of Government-Wide and Fund Financial Statements

Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Position

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net assets of governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that "Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of this \$37,044,050 difference are as follows:

| General obligation bonds payable | \$ | (20,474,550) |
|---|----|--------------|
| Issuance premium | | (39,887) |
| PBC lease revenue bonds | | (3,105,000) |
| Bond anticipation notes payable | | (4,915,000) |
| Construction loans payable | | (4,581,094) |
| Certificates of participation | | (3,480,000) |
| Accrued interest payable | | (422,496) |
| Other postemployment benefit obligations | | (144,327) |
| Deferred charges for issuance costs | | 293,450 |
| Compensated absences | | (175,145) |
| Net adjustment to decrease fund balance - total governmental funds to | Φ | (27.044.050) |
| arrive at net assets - governmental activities | | (37,044,050) |

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

2 - Reconciliation of Government-Wide and Fund Financial Statements (Continued)

Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances and the Government-Wide Statement of Activities

The governmental fund statement of revenues, expenditures and changes in fund balances includes a reconciliation between net change in fund balances – total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$(458,642) difference are as follows:

| Capital outlay | \$ 1,541,212 |
|--|-----------------|
| Depreciation expense | (1,999,854) |
| | |
| Net adjustment to increase net change in fund balances - total | |
| governmental funds to arrive at change in net assets of | |
| governmental activities | \$ (458,642) |

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

2 - Reconciliation of Government-Wide and Fund Financial Statements (Continued)

Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances and the Government-Wide Statement of Activities (Continued)

Another element of that reconciliation states that "The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of this \$1,575,048 difference are as follows:

| Debt issued or incurred: | |
|--|-------------------|
| Construction loans | \$ (87,669) |
| General obligation bonds | (3,995,000) |
| Bond anticipation note payable | (4,915,000) |
| Principal repayments: | |
| General obligation bonds payable | 2,179,600 |
| PBC lease revenue bonds | 145,000 |
| Certificates of participation | 755,000 |
| Construction loans | 383,021 |
| Bond anticipation note payable | 3,960,000 |
| Net adjustment to decrease net change in fund balances - total governmental funds to arrive at change in net assets of | |
| governmental activities | \$ (1,575,048) |
| | |

Another element of that reconciliation states that "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this \$39,819 difference are as follows:

| Compensated absences Accrued interest Other postemployment benefit obligation Amortization of issuance costs | \$ (1,976) 86,487 (14,230) (30,462) |
|--|---|
| Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities | \$ 39,819 |

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

3 - Stewardship, Compliance and Accountability

Budgetary Information

Applicable Kansas statutes require that budgets be legally adopted for the general fund, special revenue funds (unless exempted by a specific statute), enterprise funds and the debt service fund. A legal operating budget is not required for the capital projects funds, the capital improvement reserve fund or the airport fund. All budgets are prepared utilizing the modified accrual basis further modified by the encumbrance method of accounting – that is, commitments such as purchase orders and contracts, in addition to disbursements and accounts payable, are recorded as expenditures.

The Statutes provide for the following sequence and timetable in adoption of budgets:

- a. Preparation of proposed budget for the succeeding calendar year on or before August 1 of each year.
- b. Publication of proposed budget on or before August 5 of each year.
- c. A minimum of ten days' notice of public hearing, published in a local newspaper, on or before August 15 of each year.
- d. Public hearing on or before August 15 of each year.
- e. Adoption of final budget on or before August 25 of each year.

Kansas statutes permit transferring budgeted amounts from one object or purpose to another within the same fund; however, such statutes prohibit creating expenditures in excess of the total amount of the adopted budget of expenditures in an individual fund. The City Administrator is authorized to approve over-expenditures at the departmental level or transfers of budgeted appropriations between departments. However, management may not amend a fund's total budgeted expenditures without Council approval. The legal level of budgetary control is the fund level. Spending in funds which are not subject to the legal annual operating budget requirement is controlled by federal regulations, other statutes, or by the use of internal spending limits established by the City. All unencumbered appropriations lapse at the end of the year. Encumbered appropriations are not reappropriated in the ensuing year's budget but are carried forward until liquidated or cancelled. Kansas statutes permit original budgets to be increased for previously unbudgeted increases in revenue other than ad valorem property taxes. The City must first publish a notice of public hearing to amend the budget. Ten days after publication, a public hearing is held and the governing body may amend the budget at that time. There were no budget amendments in 2012.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

3 - Stewardship, Compliance and Accountability (Continued)

Deficit Net Position

The building maintenance fund had deficit net position of \$15,646 as of December 31, 2012.

4 - <u>Deposits and Investments</u>

Deposits

Custodial Credit Risk-Deposits

Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned. Kansas statutes require that deposits be collateralized, and that collateral pledged must have a fair market value equal to 100% of the deposits and investments, less insured amounts, and must be assigned for the benefit of the City. The carrying amount of deposits for the City was not exposed to custodial credit risk.

The Airport Association does not have a policy covering custodial credit risk. At December 31, 2012, the Airport Association's deposits were not exposed to custodial credit risk.

Investments

At December 31, 2012, the City had the following investments:

| Investment Type | Maturities | Fair Value | |
|----------------------------------|------------|---------------|--|
| Money market mutual funds | < 1 year | \$ 239,874 | |
| T-Bills | <1 year | 9,999,900 | |
| Pooled municipal investment pool | <1 year | 5,819,315 | |
| Total Investments | | \$ 16,059,089 | |

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The City's formal investment policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates, but requires that to the extent possible, the City will attempt to match its investments with anticipated cash flow requirements. The City is not exposed to significant interest rate risk.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

4 - Deposits and Investments (Continued)

<u>Investments (Continued)</u>

Credit risk

Kansas statutes authorize the City, with certain restrictions, to deposit or invest in temporary notes, no-fund warrants, open accounts, time deposits, certificates of deposit, repurchase agreements, U.S. Treasury Bills and Notes, the State of Kansas Municipal Investment Pool, or to make direct investments. The City has an investment policy which does not impose limitations beyond those of the State of Kansas. The City's investments in money market mutual funds are rated AAAm by Standard & Poor's and Aaa by Moody's.

Custodial Credit Risk – Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments that are in the possession of an outside party. As of December 31, 2012 the City had \$9,999,900 exposed to custodial credit risk.

The State Treasurer's Investment Pool (Pool) operates in accordance with state law, which requires it to meet all of the requirements of Rule 2a-7 of the Securities and Exchange Commission. The Pool has a credit rating of AAAf/S1+ from Standard & Poor's Financial Services. Local government investment pools in this rating category meet the highest standards for credit quality, conservative investment policies, and safety of principal. The pool invests in a high quality portfolio of debt securities investments legally permissible for municipalities and school districts in the state.

5 - Loan Receivable

During 2007 and 2008, the City made loans to the Airport Association for airport improvements. At December 31, 2012, the receivable balance was \$107,399 and is included in noncurrent liabilities on the Airport Association component unit column of the statement of net assets. The final principal and interest payments are to be made in 2019.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

7 - Defined Benefit Pension Plans

Plan Description

The City participates in the Kansas Public Employees Retirement System (KPERS) and the Kansas Police and Firemen's Retirement System (KP&F). Both are part of a cost-sharing multiple-employer defined benefit pension plan as provided by K.S.A. 74-4901, *et seq.* KPERS and KP&F provide retirement benefits, life insurance, disability income benefits, and death benefits. Kansas law establishes and amends benefit provisions. KPERS and KP&F issue a publicly available financial report (only one is issued) that includes financial statements and required supplementary information. Those reports may be obtained by writing to KPERS (611S. Kansas Avenue, Suite 100; Topeka, Kansas 66603-3803) or by calling 1-888-275-5737.

Funding Policy

K.S.A. 74-4919 establishes the KPERS member-employee contribution rate at 4% of covered salary for all employees hired prior to July 1, 2009. K.S.A. 74-49,210 establishes the KPERS member-employee contribution rate at 6% for employees hired after July 1, 2009. K.S.A. 74-4975 establishes the KP&F member-employee contribution rate at 7% of covered salary. The employer collects and remits member-employee contributions according to the provisions of Section 414(h) of the Internal Revenue Code. State law provides that the employer contribution rates be determined annually based on the results of an annual actuarial valuation. KPERS and KP&F are funded on an actuarial reserve basis. State law sets a limitation on annual increases in the employer contribution rates. The KPERS employer rate established by statute for January through December 2012 was 8.34%. The City employer contributions to KPERS for the years ending December 31, 2012, 2011, and 2010 were \$319,211, \$279,196, and \$261,495, respectively, equal to the statutory required contributions for each year. The KP&F uniform participating employer rate established for fiscal years beginning in 2012 is 16.54%. Employers participating in KP&F also make contributions to amortize the liability for past service costs, if any, which is determined separately for each participating employer. The contributions to KP&F for the years ending December 31, 2012, 2011, and 2010 were \$232,555 \$202,805, and \$234,877, respectively, equal to the statutory required contributions for each year.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

8 - Defined Contribution Plan

The City has established a Section 457 deferred compensation plan for those full-time employees not covered by the KP&F program. The plan administrator International City/County Management Association establishes the annual employee and employer contribution rates for those participating in KPERS as the difference between the rates under the KP&F and KPERS programs. For employees not yet eligible for KPERS, the rates are the same as those for the KP&F program. For 2012, the City's contributions were \$22,638.

9 - Other Postemployment Healthcare Benefits

Description. The City offers postemployment health and dental insurance to retired employees through Midwest Public Risk (MPR) which is a risk pool comprised of more than 130 entity members. MPR functions as an agent multiple-employer plan. The pool arrangement that is maintained to collect premiums and pay claims/administrative costs does not qualify as an "OPEB Plan" and thus cannot be treated as holding assets in order to offset OPEB liabilities. Though retiree benefits are not directly paid by the City, they are implicitly paid over time through employer subsidization of active premiums that would be lower if retirees were not part of the experience group. Kansas statutes provide that postemployment healthcare benefits be extended to retired employees who have met age and/or service eligibility requirements until the individuals become eligible for Medicare coverage at age 65. Retirees of the City (and their dependents) may elect to continue coverage in the medical and dental plans offered through MPR. Spousal coverage may continue for up to three years upon retiree death or retiree attainment of age 65. In any event, spousal coverage is not available beyond spouse age 65. MPR issues a publicly available financial report that may be obtained by writing to MPR at 19400 East Valley View Parkway, Independence, Missouri 64055.

Funding Policy. Through MPR, the City provides health and dental insurance benefits to retirees and their dependents in accordance with Kansas law (K.S.A. 12-5040). Kansas statutes, which may be amended by the state legislature, establish that participating retirees may be required to contribute to the employee group health benefits plan, including administrative costs at an amount not to exceed 125% of the premium cost for other similarly situated employees. The contribution requirements of plan members and the City are established and may be amended by the MPR Board of Directors. Retirees contribute 100% of the cost of premiums, which vary depending on the coverage selected.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

9 - Other Postemployment Healthcare Benefits (Continued)

The City appropriates funds annually for the costs associated with this retirement benefit and provides funding for the expenditures on a pay-as-you-go basis through the General Fund, Proprietary Funds, and Internal Service Funds. In 2012, plan members receiving benefits contributed \$20,000 to the plan and the City contributed \$5,000 to the plan.

<u>Annual OPEB Cost and Net OPEB Obligation.</u> The City's annual OPEB (other post-employment benefit) cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period of not to exceed thirty years. The following table presents the components of the City's annual OPEB cost for the year, the amount contributed to the plan, and changes in the City's net OPEB obligation.

| Annual required contribution Interest on net OPEB obligation Adjustment to annual required contribution | \$ 33,393 8,865 (10,984) |
|---|-----------------------------------|
| Annual OPEB cost (expense) | 31,274 |
| Contributions made | (5,000) |
| Increase in net OPEB obligation | 26,274 |
| Net OPEB obligation, January 1, 2012 | 177,296 |
| Net OPEB obligation, December 31, 2012 | \$ 203,570 |

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

9 - Other Postemployment Healthcare Benefits (Continued)

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2010, 2011 and 2012 are as follows:

| | Pe | | | | |
|-------------|-----------|--------|-------------|------------|---------|
| Fiscal Year | Annual | | of Cost | | et OPEB |
| Ended Ended | OPEB Cost | | Contributed | Obligation | |
| 2010 | \$ | 46,547 | 25.78% | \$ | 144,099 |
| 2011 | | 45,197 | 26.55 | | 177,296 |
| 2012 | | 31,274 | 38.37 | | 203,570 |

<u>Funded Status and Funding Progress</u>. As of July 1, 2011, the most recent actuarial valuation date, the actuarial accrued liability for benefits was \$160,208. The City's policy is to fund the benefits on a pay-as-you-go basis, resulting in an unfunded actuarial accrued liability (UAAL) of \$160,208. The covered payroll (annual payroll of active employees covered by the plan) was \$4,527,176 and the ratio of the UAAL to the covered payroll was 3.5% percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The valuation includes, for example, assumptions about future employment, mortality and the healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with the past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, will present in time, multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing relative to the actuarial accrued liabilities for benefits.

<u>Actuarial Methods and Assumptions</u>. Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and actuarial value of assets, consistent with the long-term perspective of the calculations.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

9 - Other Postemployment Healthcare Benefits (Continued)

In the July 1, 2011 actuarial valuation, the projected unit credit actuarial cost method was applied. The actuarial assumptions included a 5.00% percent discount rate, which reflects the expected rate of return of the MPR Health and Dental Fund as it is used to pay retiree claims. The valuation assumed annual healthcare cost trend rates of 5.5% to 8.5% in the first seven years and an ultimate rate of 5.00% after seven years. It also assumed an inflation rate of 6.5 percent. The UAAL is being amortized on a level dollar closed basis over a period of 30 years with the remaining amortization period of 28 years.

10 - Risk Management

The City is exposed to various risks of loss related to torts; that is, damage to and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters; and employee health, dental and accident benefits. Commercial insurance coverage is purchased for claims arising from such matters other than those related to employee health benefits and workers' compensation. Settled claims have not exceeded this commercial coverage in any of the three preceding years. There have not been significant reductions in claims from prior years.

The City obtains workers' compensation and employee health insurance through its membership in the Kansas Eastern Region Insurance Trust (KERIT) and MPR, whose members consist of local cities and counties. KERIT is a risk-sharing pool organized under the insurance laws of the State of Kansas which self-insures workers' compensation and other related expenses up to certain limits and reinsures additional excess amounts up to certain limits. The City pays annual premiums to KERIT based upon historical experience and legal requirements mandated by the State of Kansas. The trust agreement allows for member assessments in the event claims and expenses exceed KERIT's self-insured retention limit. MPR operates as a purchasing pool to provide medical and dental insurance coverage on both a self-insured and conventional basis. The City does not anticipate any additional assessments in excess of premiums paid as a result of its participation in these trusts.

11 - Capital Projects

The City is currently improving its water/sewer and electrical systems, working on street projects and performing various new developments. These projects are being funded primarily by the issuance of bonds, both general obligation and special assessment.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

11 - Capital Projects (Continued)

Following is a summary of project-to-date costs to December 31, 2012 on the capital projects compared to the amount authorized:

| | C | osts to Date | | Amount Authorized | | |

| | 2 | 18,628,548 | 2 | 32,136,991 | | |

12 - <u>Long-Term Debt</u>

General Obligation Bonds

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

12 - <u>Long-Term Debt (Continued)</u>

General Obligation Bonds (Continued)

General obligation bonds payable at December 31, 2012 are comprised of the following issues:

| | Interest Rates | Original Issue | Final Maturity Date | Principal Payments During 2012 | Outstanding December 31, 2012 |

On April 24, 2012, the City issued Series 2012C general obligation bonds in the amount of \$11,745,000 to currently refund \$12,747,863 of the KDHE Loan C20 1514-01. As a result, the KDHE Loan C20 1514-01 is considered to be defeased and the liability for the loan has been removed from the long-term debt of the City. The City completed the current refunding to reduce the total debt service payments over the next 10 years by \$831,451 and to obtain an economic gain of \$994,625.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

12 - Long-Term Debt (Continued)

Special Assessment Bonds

The City's special assessment debt was issued to provide funds for the construction of infrastructure in new commercial and residential developments. These bonds will be repaid from amounts levied against the property owners benefited by this construction. In the event that a deficiency exists because of unpaid or delinquent special assessments at the time a debt service payment is due, the government must provide resources to cover the deficiency until other resources, for example, foreclosure proceeds, are received. Special assessment bonds at December 31, 2012 are comprised of the following issues:

| | Interest Rates | Original Issue | Final Maturity Date | Principal Payments During 2012 | Outstanding December 31, 2012 |
|--|-------------------|-------------------|---------------------------|--------------------------------|-------------------------------------|
| Special Assessment Bonds: Governmental activities: | | | | | |

| 2028-2032 | 1,735,000 | 150,368 | | | |
| | \$ 13,425,000 | \$ 3,774,590 | | | |

Defeased Debt

The City has defeased certain general obligation bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the City's financial statements. At December 31, 2012, \$1,245,000 of the bonds that are considered defeased are outstanding.

Construction Loans Payable

During 1996, the City entered into a loan agreement with the Kansas Department of Health and Environment's Kansas Water Pollution Control Revolving Fund. The agreement enabled the City to borrow \$2,223,206 to finance improvements to the wastewater system. The loan is being repaid over twenty years at an interest rate of 3.22%. The outstanding balance of \$548,642 is shown as a liability in the wastewater fund.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

12 - Long-Term Debt (Continued)

Construction Loans Payable (Continued)

During 2000, the City entered into a loan agreement with the Kansas Department of Health and Environment's Kansas Water Pollution Control Revolving Fund. The agreement enabled the City to borrow \$20,078,714 to finance improvements to the wastewater system. The loan is being repaid over twenty years at an interest rate of 2.30%. As of December 31, 2012, the City has drawn \$3,966,730 on this loan. The outstanding balance as of year-end is \$3,966,730 which is shown as a liability in the wastewater fund.

During 2006, the City entered into a loan agreement with the Kansas Department of Health and Environment's Kansas Water Pollution Control Revolving Fund. The agreement enabled the City to borrow \$4,318,315 to finance improvements to the wastewater system. The loan will be repaid over twenty years at an interest rate of 2.40%. As of December 31, 2012, the City has drawn \$3,507,912 on this loan. Payments of \$122,700 were made in 2012, leaving a total outstanding balance of \$2,286,696 which is shown as a liability in the wastewater fund.

During 2005, the City entered into a loan agreement with the Kansas Department of Health and Environment's Kansas Public Water Supply Loan Fund. The agreement enabled the City to borrow \$7,582,910 to finance improvements to the water system. The loan will be repaid over twenty years at an interest rate of 3.14%. The total outstanding balance of \$4,978,823 is shown as a liability in the water fund.

During 2006, the City entered into two loan agreements with the Kansas Department of Transportation. The agreements enabled the City to borrow \$1,994,206 to finance significant street improvement projects. The loans will be repaid over ten years at an interest rate of 3.58%. The outstanding balance of \$225,709 is shown as a liability in the governmental activities column of the statement of net position.

During 2007, the City entered into a loan agreement with the Kansas Department of Transportation. The agreement enabled the City to borrow \$1,533,638 to finance significant street improvement projects. The loans will be repaid over ten years at an interest rate of 3.37%. The outstanding balance of \$738,151 is shown as a liability in the governmental activities column of the statement of net position.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

12 - Long-Term Debt (Continued)

Construction Loans Payable (Continued)

During 2009, the City entered into a loan agreement with the Kansas Department of Transportation. The agreement enabled the City to borrow up to \$858,303 to finance a significant street improvement. The loan will be repaid over twenty years at an interest rate of 3.93%. The outstanding balance of \$764,457 is shown as a liability in the governmental activities column of the statement of net position.

During 2009, the City entered into a loan agreement with the Kansas Department of Transportation. The agreement enabled the City to borrow up to \$5,141,697 to finance a significant street improvement project. The loan will be repaid over twenty years at an interest rate of 3.93%. As of December 31, 2012, the City has drawn \$3,246,069 on this loan. Payments of \$122,470 were made in 2012, leaving a total outstanding balance of \$2,852,776, which is shown as a liability in the governmental activities column of the statement of net position. The debt service requirements to the maturity date will not be determinable until the final draw has been made.

The future annual debt service requirements for the amortizable loans payable are as follows:

| | | Governmen | tal Act | ivities | Business-type Activities | | | |
|-----------------|----|--------------------|----------|--------------------|--------------------------|--------------------|----------|--------------------|
| |] | Principal | Interest | | Principal | | Interest | |

PBC Lease Revenue Bonds

The PBC has issued \$4,000,000 of Public Building Commission lease revenue bonds series 2002A with interest rates ranging from 2.75% to 4.7% and with a final maturity in 2021. Principal payments are scheduled annually ranging from \$180,000 to \$505,000.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

12 - Long-Term Debt (Continued)

PBC Lease Revenue Bonds (Continued)

Future maturities of the PBC lease revenue bonds are as follows:

| Year | Principal | Interest | Total | |
|-----------|--------------|------------|--------------|--|
| 2013 | \$ 205,000 | \$ 139,123 | \$ 344,123 | |
| 2014 | 235,000 | 130,308 | 365,308 | |
| 2015 | 265,000 | 120,203 | 385,203 | |
| 2016 | 295,000 | 108,808 | 403,808 | |
| 2017 | 330,000 | 95,828 | 425,828 | |
| 2018-2021 | 1,775,000 | 213,561 | 1,988,561 | |
| | \$ 3,105,000 | \$ 807,831 | \$ 3,912,831 | |

On August 1, 2002, the City entered into an irrevocable lease agreement with the PBC. The purpose of the lease agreement is for the City to rent the building financed by the PBC Lease Revenue Bonds, Series 2002A. The rental payments are the same as the scheduled 2002A debt payments.

On September 11, 2012, the City issued Series 2012A lease revenue bonds in the amount of \$3,105,000 to currently refund \$3,323,431 of the 2002A lease revenue bonds. As a result, the 2002A lease revenue bonds are considered to be defeased and the liability for the bonds has been removed from the long-term debt of the City. The City completed the current refunding to reduce the total debt service payments over the next 10 years by \$627,644 and to obtain and economic gain of \$375,018.

Certificates of Participation

The City has issued \$7,150,000 of certificates of participation series 2006D with interest rates ranging from 3.75% to 4% and with a final maturity in 2016. Principal payments are scheduled annually ranging from \$475,000 to \$1,195,000. Future maturities of the certificates of participation are as follows:

| Year | Principal | Interest | Total | |
|------|--------------|------------|--------------|--|
| 2013 | \$ 810,000 | \$ 137,175 | \$ 947,175 | |

For the governmental activities, compensated absences and the other postemployment benefit obligation are generally liquidated by the general fund.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

13 - Bond Anticipation Notes Payable

The City issues bond anticipation notes to provide temporary financing for capital improvement projects. These bond anticipation notes were refinanced on a long-term basis subsequent to year end. Bond anticipation notes payable at December 31, 2012 were as follows:

| Issue | | Original Amount | Interest Rate | Maturity Date |
|---|-------------------|------------------------------|------------------|-----------------------|
| 2011B 2012B | | \$ 3,960,000 \$ 6,245,000 | 0.40% 100.00% | 9/1/2012 4/15/2014 |
| | Beginning Balance | Additions | Reductions | Ending Balance |
| Governmental activities: Bond anticipation notes | \$ 3,960,000 | \$ 6,245,000 | \$ 3,960,000 | \$ 6,245,00 |

14 - Special Assessments

Kansas statutes require special benefit district projects financed in part by special assessments to be financed through the issuance of general obligation bonds that are secured by the full faith and credit of the City. Further, state statutes permit levying additional general ad valorem taxes in the City's Debt Service Fund to finance delinquent special assessments receivable. Accordingly, special assessments receivable are accounted for within the City's debt service fund. Special assessments are levied over the repayment period of the bonds and the annual installments are due and payable with annual ad valorem taxes. At December 31, 2012, the special assessment taxes levied are a lien on the property and are recorded as a special assessments receivable in the debt service fund with a corresponding amount recorded as deferred revenue. Special assessments receivable at December 31, 2012 was \$18,236,589.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

15 - Interfund Transactions

Interfund transfers for the year ended December 31, 2012 consisted of the following:

| Fund | Transfers Out | T1 | ransfers In |
|-----------------------------|---------------|----|-------------|
| | | | |
| Major funds: | | | |
| General Fund | \$ 911,400 | \$ | 500,000 |
| Debt Service Fund | 1,580,572 | | - |
| Capital Projects Fund | 71 | | 44,443 |
| Electric Fund | 940,000 | | 1,733,402 |
| Water Fund | - | | 645,402 |
| Wastewater Fund | 1,452,701 | | 1,018,715 |
| Internal Service Fund | - | | - |
| Nonmajor governmental funds | 500,000 | | 1,442,782 |
| | | | |
| Total transfers | \$ 5,384,744 | \$ | 5,384,744 |

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

| | | |
| | \$ | 1,058 |
| | | |
| Amounts owed from the stormwater fund to: | œ. | (1.200 |
| General Fund | \$ | 61,208 |

The outstanding balance between proprietary funds was created to reflect the balance owed for services provided. The interfund payables due from certain nonmajor governmental funds include amounts owed to the General Fund for the reimbursement of certain indirect costs.

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

16 - Commitments and Contingencies

Litigation

The City is involved in various lawsuits incurred through normal operations. It is the opinion of the City's management that the outcome of this litigation will not result in a material loss to the City in excess of applicable insurance coverage.

Industrial Revenue Bonds

The City has issued industrial revenue bonds to finance the purchase of land and construction of a facility leased to a business that relocated to the City. The lease agreement provides for rentals sufficient to service the related bonds. The debt service on this issue is paid solely from lease agreements; this issue does not constitute a debt of the City. The lessee has the option of purchasing the leased property at any time during the lease period for an amount sufficient to retire the related outstanding bonds. At the end of the lease period, which conforms to bond maturity schedules, the lessee may either purchase the property for a nominal amount or renew the lease annually at a nominal amount. As of December 31, 2012, industrial revenue bonds of \$46,950,431 are outstanding.

Encumbrances

The City uses encumbrances to control expenditure commitments for the year and to enhance cash management. Encumbrances represent commitments related to executory contracts not yet performed and purchase orders not yet filled. Commitments for such expenditure of monies are encumbered to reserve a portion of applicable appropriations. Encumbrances still open at year-end are not accounted for as expenditures and liabilities, but, rather, as restricted, committed, or assigned fund balance. At December 31, 2012, the City's recorded encumbrances in governmental funds were as follows:

| General | \$ - |
|--------------------------|-----------------|
| Capital projects | 1,825,995 |
| Other governmental funds | 36,929 |
| Electric | 46,762 |
| Water | 40,427 |
| Sewer | 57,680 |
| | \$ 2,007,793 |

17 - Subsequent Events

Subsequent to year end, the City issued \$7,285,000 in General Obligation Refunding Bonds, Series 2013A, for the purpose of refunding all or portion of the City's outstanding General Obligation Bonds, Series 2001A, Series 2002B, Series 2004D, Series 2005A and Series 2006A.

| 7/1/2011 | - | | 160,208 | | 160,208 | 0.0% | 4,527,176 | 3.5% |

Note 1 - Significant Factors Affecting Trends in Actuarial Information

Changes in Actuarial Liability for the valuation completed at July 1, 2011 are primarily due to:

- The assumed Medical / Rx trend rates were changed from 10%, 9.5%, 9%, 8.5%, 8%, 7.5%, 7%, 6.5%, 6%, 5.5% (Ultimate) to 8.5%, 8%, 7.5%, 7%, 6.5%, 6%, 5.5%, 5% (Ultimate). The assumed Dental trend was lowered from 5.0% to 4.0%.
- The turnover rates and retirement age assumptions were updated to reflect the latest statistics available from the applicable statewide pension valuations.
- The assumed enrollment rate for future retirees was lowered from 55% to 45% for those retiring at ages 55 to 59, from 40% to 35% for those retiring prior to age 55, and from 70% to 55% for those retiring at ages 60 to 64.
- The valuation interest rate was lowered from 5.75% to 5.00% based on our analysis and correspondence with the investment advisor of MPR concerning anticipated asset allocation and expected returns of the Health & Dental Fund.
- Expected Medical/Rx costs and retiree premiums each increased about 10% per year.

Nonmajor Governmental Funds

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

Law Enforcement Trust Fund – This fund is used to account for monies forfeited to the City of Gardner Police Department relating to controlled substance investigation forfeitures. Expenditures from this fund shall be made only for authorized law enforcement purposes of the Gardner Police Department.

Capital Improvement Reserve Fund – This fund is used to account for intergovernmental revenues that the City may expend to finance multi-year capital projects.

Special Alcohol/Drug Program Fund – This fund is used to account for special alcohol liquor tax revenues that are restricted for the purpose of funding programs for the education, treatment, and intervention of alcohol and drug abuse.

Special Parks and Recreation Fund – This fund is used to account for special alcohol liquor tax revenues that are restricted to expenditures for the purchase, establishment, maintenance, or expansion of park and recreational services, programs, and facilities.

East Santa Fe TIF District Fund – This fund is used to account for the captured ad valorem tax increment and sales tax increment from properties within the Redevelopment District created by Ordinance 2110, adopted June 21, 2004. The captured increments are to be used to reimburse the developer for "reimbursable project costs" as defined in the 175th and Cedar Niles Redevelopment Agreement dated January 3, 2005.

Economic Development Reserve Fund – This fund is used to account for transient guest tax revenues that are restricted for the purpose of convention and tourism promotion.

Capital Projects Fund

Street Improvement Fund – This fund is used to account for receipt of the City's excise fee on platted land. The expenditures in this fund are specifically restricted for the purpose of improvement of existing streets and the construction of new streets necessitated by the City's new development growth.

Special Highway Fund – This fund is used to account for county/city revenue sharing of a portion of the State's motor fuel tax. These revenues are restricted to the construction and maintenance of streets, the repair and replacement of curbs, and the repair and construction of sidewalks within the City's boundaries.

City Hall – This fund is used to account for the PBC blended component unit.

Debt Service Fund

Park Sales Tax Fund – This fund is used to account for the sales tax revenues that are restricted to expenditures relating to the acquisition and construction of the new Celebration Park Complex and the Aquatics Center.

Internal Service Funds

Internal service funds are used to account for the financing of goods or services provided by one department to other departments of the City on a cost reimbursement basis.

Information technology services fund – This fund is used to account for the accumulation and allocation of costs associated with electronic data processing.

Building maintenance fund – This fund is used to account for the accumulation and allocation of costs associated with maintenance and miscellaneous repairs at City Hall.

Risk management fund – This fund is used to account for the accumulation and allocation of costs associated with the City's risk financing activities.

Utility billing services fund – This fund is used to account for the accumulation and allocation of costs associated with calculating and billing amounts owed for services provided by the City's utilities.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the fiscal year ended December 31, 2012

STATISTICAL SECTION

Statistical Section

This part of the City of Gardner's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

| <u>Contents</u> | Page |
|--|-------------|
| Financial Trends These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time. | 94 - 97 |
| Revenue Capacity These schedules contain information to help the reader assess the factors affecting the City's ability to generate its most significant local revenue source, which is the electric, water and wastewater revenues, as well as its property taxes. | 98 - 106 |
| Debt Capacity These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future. | 107 - 110 |
| Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place and to help make comparisons over time with other governments. | 111 - 112 |
| Operating Information These schedules contain information about the City's operations and resources to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs. | 113 - 115 |

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The City of Gardner implemented GASB Statement 34 in 2003; schedules presenting government-wide information include information beginning in that year.

Note: (Pithernose between 2003 and 2004 General Government expenditures are largely due to GAAP reporting catagorization differences caused by a change in City accounting practices. In 2004, proprietary transfers to the General Fund were a percentage of revenues, and GAAP direct these "Interfund services" transfers to be netted against General Governmental expenditures. In 2004, proprietary transfers to the General Fund were a percentage of revenues, and GAAP direct these "Interfund transfers" to be reported as transfers in. Without GAAP requirements, the General Government expenditures for 2003 was \$2,163,840.

Notes: Electricity is presented in MegaWatt Hours and gallons are presented in millions.

(a) Unbilled amounts include electric, water, and sewer used by the City of Gardner for government operations,

and also amounts sold to wholesale customers through the EMP#1 pool.

(b) In 2005, the City implemented interdepartmental billing, thus reducing the amount of unbilled electric usage.
(c) In 2005, the increase to gallons of wastewater treated was due to a significant increase in rainfall.
(d) Rates shown are for residential customers. For more detail on utility rates see the Electric, Water, and Sewer Rate schedule in this section.
(e) Per 1,000 gallons.

Note: Property in Johnson County is reassessed every year. The County assesses property at approximately 25 percent of actual value for commercial. 30 percent for agricultural, 12 percent for not-for-profit, and 11.5 percent for residential. Estimated actual taxable value is calculated

by dividing taxable assessed value by those percentages. Tax rates are per \$1,000 of assessed value.

Note: One mill is \$1 of property tax for each \$1,000 of assessed valuation.

Source: Johnson County Department of Records and Tax Administration - County Clerk's Office

⁽a) During some of these years, there were both "Gardner with City Fire" and "Gardner - No Fire" mill rates because there were portions of Gardner that were assessed for fire protection by the Johnson County Fire District. In the interest of consistency, only "Gardner with City Fire" rates are shown here for those years in which there were multiple "Gardner City" mill rates.

Note: (a) In 2007, the City of Gardner Streets Dept. began a new resurfacing program using sturry seal. The savings allowed more linear feet to be completed in both streets and curbs. Also in 2007, a new Aquatio Facility opened. The added features and capacity attracted patrons from miles around.

Note: (b) In 2010, the City of Gardner entered into a contractual agreement with Johnson County Fire District No. 1 to provide all fire services.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor, City Administrator and City Council City of Gardner, Kansas:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Gardner, Kansas (the City) as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated June 25, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Allen, Gibbs & Houlik, L.C. CERTIFIED PUBLIC ACCOUNTANTS

June 25, 2013 Wichita, KS

SCHEDULE OF PRIOR YEAR FINDINGS AND RESPONSES

Year Ended December 31, 2012

Finding 2011-1 – Significant Deficiency

Condition – Significant adjustments to the trial balance were not initially identified by the City's internal control structure in order for the financial statements to be in accordance with generally accepted accounting principles (GAAP). Although the number of entries decreased from 20 in 2010 to 16 in 2011, this finding is repeated from the prior year.

Criteria – The financial statements are the responsibility of management. As such, the City's internal control over the financial statements should identify misstatements on a consistent basis.

Cause – Inappropriate application of generally accepted accounting principles.

Effect – There is the potential that the financial statements may be materially misstated.

Recommendation – We recommend that the City review its trial balance throughout the year and at year-end to ensure that all adjustments have been made for the financial statements to be in accordance with GAAP.

Management's Response/Corrective Action Plan (Unaudited) – Progress continues to be made to decrease the number of unidentified adjustments to the trial balance. The number of journal entries made during the current audit year decreased 20% from the prior year, for a combined 51% decrease in the past two years. Additional progress to reduce the number of unidentified adjustments even further is expected with increased staff knowledge and experience for the fiscal year 2012 audit.

Follow –up – No significant journal entries were made during the current year.
